IBM Virtualization Technical Support for AIX and Linux

Practice Exam: 000-101

Exam Number/Code: 000-101

Exam Name: Virtualization Technical Support for AIX and Linux

Questions and Answers: 58 Q&As

Exam Description

Order : [000-101 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-101 Exam.

Exam4Test **Practice Exams** for 000-101 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications III** exam and get your **IBM certifications III Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications III** "000-101" (Virtualization Technical Support for AIX and Linux on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test IBM certifications III 000-101 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications III 000-101 exam provides everything which you need to pass your exam. The IBM certifications III Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-101 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Virtualization Technical Support for AIX and Linux(IBM certifications III) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-101 exam.

000-101 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications III exam. 000-101 exam questions updated on regular basis.

Like actual IBM certifications III Certification exams, 000-101 exam preparation is in multiple-choice questions (MCQs). Tested by many real IBM certifications III exams before publishing.

Try free IBM certifications III exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-101 Exam: 100% Guarantee to Pass Your 000-101 exam and get your IBM certifications III Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your IBM certifications III Certification.

Exam4Test professional provides IBM certifications III 000-101 the newest Q&A, completely covers 000-101 test

original topic. With our completed IBM certifications III resources, you will minimize your IBM certifications III cost and be ready to pass your 000-101 test on Your First Try, 100% Money Back Guarantee included!

000-101 Exam Study Guide

000-101 exam is regarded as one of the most favourite [IBM certifications III Certifications](#). Many IT professionals prefer to add 000-101 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-101 exam but also provides you the excellent 000-101 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-101 exam

000-101 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-101 exam questions updated on regular basis

Same type as the certification exams, 000-101 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-101 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-101

Title : Virtualization Technical Support for AIX and Linux

1. An administrator has a Power 570 in default configuration with a 4 port 1 Gbps Integrated Virtual Ethernet (IVE) adapter. A new application requires that the MCS value for the first port group of the IVE adapter be set to 1. If this change is made, what is the maximum number of logical ports, across both port groups, that the IVE adapter can provide?

- A. 4
- B. 16
- C. 20
- D. 32

Answer: C

2. A customer has 5 older POWER5 systems and they want to consolidate them onto a POWER6 system. What information is important to analyze when deciding how to design the new machine using the System Planning Tool?

- A. vmstat and iostat data from the older machines
- B. The number of CPUs that were installed in the original machines
- C. Data from Workload Estimator (WLE) and IBM Performance Management (PM)
- D. Performance data that is collected from the new system after it has been put into production

Answer: C

3. Which functionality would a customer use to share available CPU resources between AIX and Linux partitions on a Power system?

- A. Dynamic LPAR

- B. Micro Partitions
- C. Entitled capacity
- D. Multiple Shared Processor Pools

Answer: B

4. A customer has a requirement to provide VLAN tagging and a highly available network infrastructure for the logical partitions. A dual VIO server environment with Shared Ethernet Adapters (SEAs) is in place.

How can the customer support these requirements?

- A. Create a SEA failover infrastructure with each having a Virtual Ethernet with a unique PVID mapping to a Virtual Ethernet on the LPAR with unique PVID.
- B. Create a SEA failover infrastructure with each having a Virtual Ethernet with the same PVID mapping to a Virtual Ethernet on the LPAR with the same PVID.
- C. Create a Network Interface Backup (NIB) infrastructure with each SEA having a Virtual Ethernet with the same PVID mapped to a Virtual Ethernet with the corresponding PVID on the LPAR.
- D. Create a Network Interface Backup (NIB) infrastructure with each SEA having a Virtual Ethernet with a different PVID. Map one to a Virtual Ethernet with the corresponding PVID on the client LPAR.

Answer: B

5. A customer is interested in server consolidation of their AIX and POWER Linux (SLES 10) environments and sees virtualization as an important component of this.

Which of the following options provides the required virtualization and optimizes the use of the hardware?

- A. A VIO server can provide virtualization capabilities of network and disk for both AIX and Linux clients.
- B. A VIO server partition with the PowerVM Lx86 for x86 installed can provide virtualization capabilities of network and disk for both AIX and Linux clients.
- C. A VIO Server partition can provide virtualization of network and disk for AIX clients. A separate Linux partition can provide virtualization of network and disk to Linux clients.
- D. A VIO Server can provide virtualization of network and disk for AIX clients. A separate Linux partition running PowerVM Lx86 for x86 can provide virtualization capabilities of network and disk to Linux clients.

Answer: A

6. Which of the following statements is true regarding implementing Live Partition Mobility on two existing POWER6 based systems?

- A. The systems must use internal storage for boot purposes.
- B. All virtualized ethernet adapters must be numbered below 10.
- C. The mobile partition's network and disk access must be virtualized.
- D. Each system must be controlled by a different Hardware Management Console (HMC).

Answer: C

7. Which of the following statements is true regarding virtual Ethernet redundancy?

- A. Specifying an IP Address to ping is optional with Network Interface Backup (NIB) and is optional with Shared Ethernet Adapter (SEA) failover.
- B. Specifying an IP Address to ping is optional with Network Interface Backup (NIB) and is required with Shared Ethernet Adapter (SEA) failover.
- C. Specifying an IP Address to ping is required with Network Interface Backup (NIB) and is required with Shared Ethernet Adapter (SEA) Failover.
- D. Specifying an IP Address to ping is required with Network Interface Backup (NIB) and is optional with Shared Ethernet Adapter (SEA) failover.

Answer: D

8. A company has a new Power 570. They will install 2 LPARs and 1 VIO server. All networking will be virtualized. Their application requires a large amount of bandwidth, and Link Aggregation on the VIO server will be utilized.

They have 4 dual port gigabit Ethernet cards. The network infrastructure team has advised the implementation team that they are able to allocate 8 ports split between two switches, SwitchA and SwitchB.

How can Link Aggregation (LA) be configured for maximum possible bandwidth available for the LPARs?

- A. Configure 2 LA devices, each containing 2 ports from SwitchA and 2 ports from SwitchB, no backup interfaces.
- B. Configure 2 LA devices, each containing any 4 of the 8 available gigabit Ethernet interfaces and 1 backup interface
- C. Configure 1 LA device with all 8 gigabit Ethernet interfaces split between the two switches, and no backup interface.
- D. Configure 2 LA devices, each containing 4 gigabit Ethernet interfaces connected to the same switch, no backup interfaces.

Answer: D

9. Which of the following can be used to re-deploy a system configuration in a disaster recovery scenario?

- A. System plan
- B. System profile
- C. Critical console data
- D. VIO server partition profile

Answer: A

10. The system administrator for a company plans to consolidate the workload of several ageing servers onto a new Power server. The administrator's intention is to virtualize all network and disk resources for each LPAR in the new system using VIOS 1.x.

Which of the following is correct regarding MAC addresses and World Wide Port Names (WWPN) in a client partition?

- A. Each client LPAR will have its own MAC address and WWPN.
- B. Each client LPAR will have no unique MAC address or WWPN.
- C. Each client LPAR will have its own MAC address, but no unique WWPN.
- D. Each client LPAR will have no unique MAC address, but will have its own WWPN.

Answer: C
