

Exam4Test 000-347 Exams**IBM TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR**

Practice Exam: 000-347

Exam Number/Code: 000-347

Exam Name: TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR

Questions and Answers: 118 Q&As

Order : [000-347 Exam](#)

Exam Description

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-347 Exam.

Exam4Test **Practice Exams** for 000-347 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications II** exam and get your *IBM certifications II Certification*.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications II** "000-347" (TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test IBM certifications II 000-347 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications II 000-347 exam provides everything which you need to pass your exam. The IBM certifications II Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-347 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR(IBM certifications II) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-347 exam.

000-347 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications II exam. 000-347 exam questions updated on regular basis.

Like actual IBM certifications II Certification exams, 000-347 exam preparation is in multiple-choice questions (MCQs). Tested by many real IBM certifications II exams before publishing.

Try free IBM certifications II exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-347 Exam: 100% Guarantee to Pass Your 000-347 exam and get your IBM certifications II Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your IBM certifications II Certification.

Exam4Test professional provides IBM certifications II 000-347 the newest Q&A, completely covers 000-347 test original topic. With our completed IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-347 test on Your First Try, 100% Money Back Guarantee included!

000-347 Exam Study Guide

000-347 exam is regarded as one of the most favourite [IBM certifications II Certifications](#). Many IT professionals prefer to add 000-347 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-347 exam but also provides you the excellent 000-347 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-347 exam

000-347 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-347 exam questions updated on regular basis

Same type as the certification exams, 000-347 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-347 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-347

Title : TEST 347, WEBSHERE PORTAL V5.0, DEPLOYMENT AND ADMINISTR

1. Which of the following statements are TRUE regarding portlet applications?

- A. Each portlet application can contain multiple portlets
- B. The application is inside of a Web Application Archive (WAR) file
- C. Portlet applications are not required since portlets can be deployed by themselves
- D. Only one portlet application can be contained in a Web Application Archive (WAR) file

Answer: AB

2. A company decides to use WebSphere Portal in order to provide all employees with a single source of information. The users will be asked once to provide a userid and password in order to reach true single-sign-on for all components. Which of the following components would NOT be able to participate in a single-sign-on?

- A. A POP3-Mailserver
- B. A Telnet-based legacy system that is accessed via an Applet and that shall not be changed
- C. An Apache-HTTP-Server-based information system that uses BASIC-Auth to authenticate and that shall not be changed
- D. A WebSphere Application Server based information system that uses Form-based login, where the Application itself shall not change.

Answer: B

3. Which of the following are TRUE when adding new themes and skins to a clustered Portal environment?

- A. WebSphere Portal's EAR file must be updated in the Deployment Manager.
- B. WebSphere Portal's EAR file must be manually updated on the node.

- C. Updates to the EAR file on the Deployment Manager will be synchronized across the nodes.
- D. Updates to the EAR file on the node will be synchronized across the nodes.
- E. The cluster's master configuration is held by the node agent.

Answer: AC

4. The administrator has installed a portlet from development and placed it on a page called "Human Resources". Employee Dave cannot see the portlet on this page with the other portlets when he logs in, but the other employees in his department can. From the options below, what could be the problem?

- A. The portlet application WAR did not contain the appropriate page information in the portlet.xml file
- B. The portlet was not activated after it was installed
- C. The appropriate access rights for this portlet were never given to Dave
- D. Dave does not have rights to view the Human Resources page

Answer: C

5. In a production environment, where is the BEST location for the LDAP directory?

- A. The LDAP directory co-resident with WebSphere Portal.
- B. The LDAP directory co-resident with WebSphere Application Server (WAS)
- C. The LDAP directory located on a separate machine from WebSphere Portal.
- D. The LDAP directory co-resident with the HTTP Server.

Answer: C

6. Which of the following is TRUE about the WebSphere Portlet Catalog that is accessible via the Internet?

- A. Portlet technology previews from IBM may be made available through the Portlet Catalog.
- B. The Portlet Catalog is accessible from the Portal itself; therefore, Portlets can be installed directly from the Internet.
- C. The Portlet Catalog is a download site only available to WebSphere Portal customers where any portlet developer can contribute portlets to make them available as-is to any interested party.
- D. Samples of portal pages can be found in the Portlet Catalog.

Answer: A

7. In order for portlets to render in parallel, which of the following must be TRUE?

- A. Only the portal must be set to enable parallel portlet rendering.
- B. Only the portlets must be set to enable parallel portlet rendering.
- C. Both the portal and portlet must be set to enable parallel portlet rendering.
- D. WebSphere Application Server must be set to enable parallel portlet rendering.

Answer: C

8. When cloning a portlet using the administrative pages, which of the following is true regarding the data associated with the portlet and portlet application?

- A. The portlet application parameters are copied from the cloned application, but the portlet parameters are left blank since this is a new version of the portlet
- B. The new portlet application parameters and portlet parameters are created from the original portlet.xml as base configuration data for the clone
- C. The portlet application and portlet are cloned, but the parameters are left blank for configuration by the administrator
- D. The portlet application data and the portlet data are duplicated to the clone from the portlet being copied

Answer: D

9. Which of the following statements is TRUE regarding the PortletSettings configuration object?

- A. Contains configuration parameters for all instances of a concrete portlet
- B. Initialized by the developer and cannot be modified by the administrator
- C. Allows each user to customize their own settings
- D. Available to every portlet in the portlet application

Answer: A

10. What authentication options can be selected by the administrator when creating a new web clipping portlet?

- A. Form-based Authentication
- B. TAI (Trust Association Interceptor)
- C. Client Certificate Authentication
- D. HTTP Basic Authentication

Answer: AD

11. Which of the following statements is true if a portlet is updated by uninstalling and reinstalling the portlet application?

- A. Since the portlet data is stored in the database based on the portlet name, uninstalling and reinstalling the portlet will maintain the portlet data and user specific configuration
- B. All portlet data including user configuration, saved portlet and portlet application parameters and portlet page placement are deleted and must be reconfigured
- C. User specific configuration data for this portlet will be maintained since it's stored in the WMM database, however, placement of the portlet on pages will have to be reconfigured
- D. Since page layout is maintained through the Manage Pages portlet, the portlet will remain on the page until removed, however, the portlet configuration data will be lost

Answer: B

12. A customer has decided to use WebSphere Portal V5. The customer already has an IBM Directory Server 5.1 based LDAP-Server. The customer wants to enable the already deployed users as WebSphere Portal users. Which of the following statements are TRUE regarding the required integration?

- A. There must be a user named wpsadmin with the password wpsadmin prior to installation.
- B. After portal installation, passwords for wpsadmin and wpsbind should not be changed.
- C. A group named wpsadmins must exist in the directory.
- D. The fully qualified directory path to the users must not contain a "ou=" (organizational unit) entry.

Answer: C

13. Considering best production environment practices, which of the following should reside in the de-militarized zone (DMZ)?

- A. WebSphere Application Server and the master repository
- B. HTTP Server and WebSphere Application Server plugin file
- C. WebSphere Portal and xmlaccess.bat
- D. LDAP directory server

Answer: B

14. An administrator needs to have a configuration parameter available for all of the portlets in the portlet application and requires the ability to change them if needed. Currently, he must add the name/value pairs each time the portlet is installed. Where can he instruct the developer to place the parameters in the portlet application to help reduce the time it takes to configure the portlet?

- A. Use the <init-param> in the web.xml
- B. The parameters would have to be programmatically added in the portlet source
- C. Use the <context-param> in the portlet.xml
- D. Portlet application parameters can not be defined before the application is installed

Answer: C

15. After Portal installation an administrator needs to configure DB2 as the database. Using the wpsconfig tool, which of the following steps is NOT required?

- A. Export contents of Cloudscape
- B. Edit the wpsconfig.properties file
- C. Run wpsconfig backup-main-cfg-file
- D. Create DB2 databases required for Portal
- E. Run wpsconfig database-transfer-import

Answer: C

16. Which one of the following environmental aspects is NOT supported for a development installation of WebSphere Portal using local debugging?

- A. Having 768MB RAM.
- B. Having WebSphere Application Server Fixpack 1.
- C. Having a DHCP-assigned IP address.
- D. Having Microsoft Windows XP.

Answer: C

17. In order to make a portlet the source portlet in a cooperative portlet scenario, what must be added to the portlet?

- A. custom JSP tag library
- B. WSDL with custom extensions
- C. portlet parameter name
- D. security.xml

Answer: A

18. Which of the following database scenarios is NOT valid in a horizontal clustering configuration for WebSphere Portal?

- A. One centralized Oracle database for the entire cell.
- B. DB2 database clients on each node.
- C. One centralized Cloudscape database for the entire cell.
- D. One centralized DB2 database for the entire cell.

Answer: C

19. In order to configure Search in clustered portal environment, which of the following is the best solution?

- A. Create an index on each node.
- B. Store the documents on a mounted file system.
- C. Create the index on the deployment manager node.
- D. Replicate the index to each cluster member.

Answer: B

20. When running multiple cluster members in a vertical clustering configuration, what can be done to ensure that there are no port conflicts between cluster members?

- A. Assign Custom Unique Names to the portlets in each cluster member.
- B. Check the Generate Unique HTTP Ports option in the WebSphere Application Server Admin Console.
- C. Edit the port numbers of each member in the web server plug-in.
- D. Check the create replication entry in this server option in the WebSphere Application Server Admin Console.

Answer: B
