

Exam4Test 000-385 Exams

IBM ibm high end tape solutions version3

Practice Exam: 000-385

Exam Number/Code: 000-385

Exam Name: ibm high end tape solutions version3

Questions and Answers: 160 Q&As

Exam Description

Order : [000-385 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-385 Exam.

Exam4Test **Practice Exams** for 000-385 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications II** exam and get your **IBM certifications II Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications II** "000-385" (ibm high end tape solutions version3 on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test IBM certifications II 000-385 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications II 000-385 exam provides everything which you need to pass your exam. The IBM certifications II Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-385 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first ibm high end tape solutions version3 (IBM certifications II) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-385 exam.

000-385 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications II exam. 000-385 exam questions updated on regular basis.

Like actual IBM certifications II Certification exams, 000-385 exam preparation is in multiple-choice questions (MCQs). Tested by many real IBM certifications II exams before publishing.

Try free IBM certifications II exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-385 Exam: 100% Guarantee to Pass Your 000-385 exam and get your IBM certifications II Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your IBM certifications II Certification.

Exam4Test professional provides IBM certifications II 000-385 the newest Q&A, completely covers 000-385 test

original topic. With our completed IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-385 test on Your First Try, 100% Money Back Guarantee included!

000-385 Exam Study Guide

000-385 exam is regarded as one of the most favourite [IBM certifications II Certifications](#). Many IT professionals prefer to add 000-385 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-385 exam but also provides you the excellent 000-385 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-385 exam

000-385 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-385 exam questions updated on regular basis

Same type as the certification exams, 000-385 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-385 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-385

Title : IBM high end tape solutions version3

1. A customer is experiencing poor performance on their VTS for some of their batch tape jobs. Which of the following IBMTools jobs should be run to help determine the nature of the problem?

- A. J5SMF
- B. J9FLAT
- C. FIXSMF21
- D. BADBLKSZ

Answer: D

2. A Data Center manager would like to reduce operational storage management requirements. They currently have a IBM eServer zSeries, several IBM eServer pSeries, and multiple non-IBM UNIX servers installed. Each system uses a unique backup tool with various types of tape systems. Which of the following would be the most complete solution to simplify operations and reduce storage management costs?

- A. Use CA Unicenter to backup all installed servers.
- B. Use Tivoli Storage Manager and DFSMSHsm to provide backup of supported servers.
- C. Install Tivoli Storage Manager to provide backup services for supported servers.
- D. Install Tivoli Storage Manager for zSeries.

Answer: B

3. A customer has the following installed tape library configuration:

- .IBM 3494-L14 with 0 drives
- .IBM 3494-D12 with 4 drives
- .IBM 3494-B10 VTS with 216 GB cache

There are 200 cartridge storage slots available (unused) in the current configuration. Two native IBM 3590s are to be added to support a Tivoli Storage Manager server on an IBM eServer pSeries. It has been determined that 100 cartridges in the library is the appropriate number to support Tivoli Storage Manager. Which of the following is the lowest-cost MES action to take?

- A. Add another 3494-D12 with two drives.
- B. Add two drives to the existing 3494-D12 frame.
- C. Change the 3494-L14 to 3494-L12 and add two drives.
- D. Connect the IBM eServer pSeries to two of the existing drives.

Answer: C

4. Which of the following reasons is most likely to indicate the need for high capacity/high performance tape drives in an IBM TotalStorage Enterprise Automated Tape Library (3494)?

- A. Existing cartridge format
- B. Existing number of tape drives
- C. Workload data compression ratio
- D. Workload consisting of 75% DFSMSHsm ML2/Incrementals

Answer: D

5. A Request for Proposal (RFP) has been received describing the implementation of a centralized data backup solution. The customer has five campus buildings inter-connected with 100 Mb coaxial Ethernet. Every building has three servers and each server has a 2 GB database that requires nightly backup. The backups must be completed in a four-hour window. A technical staff person attending an IBM road show heard about IBM Tivoli Storage Manager (ITSM) and is considering implementing this solution. What is the next step to be performed by a Business Partner representative?

- A. Call IBM TechLine/PartnerLine to provide the solution
- B. Commit to a six week trial of an integrated solution
- C. Contact Tivoli for an analysis and software quote
- D. Engage a technical specialist to develop a solution

Answer: D

6. Which of the following is the fastest way to share industry information relating to the IBM 3592 specifications with the customer?

- A. Arrange an executive briefing
- B. Contact PartnerLine for IBM 3592 information
- C. Share the www.storage.ibm.com website information with the customer
- D. Share the www.3592.ibm.com website information with the customer

Answer: C

7. A customer is using Fast Dump Restore (FDR) to do vaulting and is sending 500 ECCST tapes offsite each day. The customer is upgrading to IBM 3590-E1A drives from IBM 3490/36 track technology. Which of the following indicates the minimum number of "J" cartridges, assuming maximum utilization of the capacity of the cartridges, that the customer would send offsite each day?

- A. 10
- B. 20
- C. 50
- D. 80

Answer: B

8. Which of the following is the best source for finding the most current information on non-IBM Software support of IBM Tape products?

- A. IBM Redbooks
- B. IBM Storage Website
- C. IBM Competency Center
- D. IBM Product Specification Sheets

Answer: B

9. A customer has a 3494-B20 VTS with 12 3590-H1A tape drives housed in a 10 frame 3494 library. The 3494 is running out of slots for stacked volumes. What can be added to reduce the number of stacked volumes, and increase the performance of the back end?

- A. A D12 frame
- B. 3592 drives
- C. 3590 K cartridges
- D. 3590 drives

Answer: B

10. A customer is using Tivoli Storage Manager (TSM) on an IBM eServer zSeries system connected to their IBM TotalStorage Virtual Tape Server (3494) and six native IBM 3590E drives connected via ESCON. They want to migrate their TSM workload onto an IBM eServer pSeries system. After it is moved, TSM will require the use of two drives. They asked the IBM Storage Specialist for a recommendation on how to connect the required two drives. Which of the following should be recommended?

- A. Connect two ESCON drives to the pSeries ESCON card.
- B. Direct connect two drives to the pSeries server.
- C. Install two 3590-B11s in the IBM 3494 Library for TSM to use.
- D. Convert two 3590 drives to FICON and then attach them to the pSeries system.

Answer: B

11. Which of the following SMF record types, in addition to types 14, 15 and 21, is required as input to the Batch Magic Tape Analysis Tool?

- A. 30
- B. 40
- C. 73
- D. 94

Answer: A

12. A customer's I/T Director has asked for a presentation on IBM storage technology. Recent changes in government regulations will require a significant increase in the amount of data that must be archived and protected from alteration. Which of the following IBM products should be presented?

- A. IBM 3995 Optical Library
- B. IBM LTO Ultrium 2 Tape Drive
- C. IBM 3592 TotalStorage Tape Drive
- D. IBM 3583 TotalStorage Scalable Library

Answer: C

13. A tape specialist has been asked to review a proposed first in Enterprise z/OS IBM TotalStorage Virtual Tape Server (VTS) configuration. Which of the following should the tape specialist review FIRST ?

- A. The latest VTS Health Assessment
- B. The ETL Expert reports for the last 30 days
- C. The VTSSTATS reports for the last 30 days
- D. The Batch Magic reports

Answer: D

14. A tape marketing specialist is asked to determine the number of cartridge slots currently under STK silo automation. Which of the following would give the key information necessary to determine the statistic?

- A. The number of installed Timberline drives (9490)
- B. The number of installed Library Storage Modules (LSM)
- C. The number of installed Library Management Units (LMU)
- D. The number of installed Automated Cartridge Systems (ACS)

Answer: B

15. A customer's environment consists of an IBM eServer zSeries system with six manually operated tape drives and two open systems servers attached to a Tivoli Storage Manager server with DLT tapes. The customer wants a consolidated tape solution for the whole environment. Which of the following is the LEAST expensive fully-automated solution?

- A. IBM 3584 with LTO Ultrium Tape Drives
- B. IBM 3494 with IBM 3590 tape drives
- C. IBM 3494 Model B10 VTS with only SCSI attachment
- D. IBM 3494-C20 with 3592 drives

Answer: B

16. A customer utilizes DFSMSHsm migration level 2, and has 10000 3490E extended length cartridges. How many 3592 300GB cartridges would be required for this amount of data?

- A. 17
- B. 27
- C. 37
- D. 57

Answer: B

17. Which of the following is a valid attachment for an IBM TotalStorage Enterprise Automated Tape Library (3494) in a OS/390 and/or z/OS environment?

- A. FICON data path and FICON control path
- B. FICON data path and Ethernet control path
- C. ESCON data path and Ethernet control path
- D. Fibre Channel data path and Fibre Channel control path

Answer: A

18. An IBM eServer zSeries customer wants to identify what data sets are being recalled in the VTS. Which of the following tools would be the most helpful?

- A. TapeWise
- B. Mount Monitor
- C. TapeMagic
- D. VTSSTATS

Answer: A

19. A hospital has an IBM eServer zSeries platform and wants to start digitizing all patient files. They plan to store patient files online for the first six months and then move them to a tape library. Which of the following tools should be recommended?

- A. TSM
- B. DFSMSHsm
- C. ARCserve
- D. StorageGuard

Answer: B

20. The IBM Magstar 3590 drives are attached to an IBM Magstar 3590 ESCON controller. Which of the following parameters will have the LEAST effect on the overall throughput performance?

- A. Block size
- B. Type of data
- C. Length of tape
- D. Number of channels

Answer: C
