IBM Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008

Practice Exam: 000-439

Exam Number/Code: 000-439

Exam Name: Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008

Questions and Answers: 102 Q&As

Exam Description

Order : [000-439 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-439 Exam.

Exam4Test **Practice Exams** for 000-439 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications I** exam and get your **IBM certifications I Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications I "000-439"** (Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008 on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test IBM certifications I 000-439 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications I 000-439 exam provides everything which you need to pass your exam. The IBM certifications I Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-439 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008(IBM certifications I) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-439 exam.

000-439 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications I exam. 000-439 exam questions updated on regular basis.

Like actual IBM certifications I Certification exams, 000-439 exam preparation is in multiple-choice questions (MCQs) Tested by many real IBM certifications I exams before publishing.

Try free IBM certifications I exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-439 Exam: 100% Guarantee to Pass Your 000-439 exam and get your IBM certifications I Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your IBM certifications I Certification.

Exam4Test professional provides IBM certifications I 000-439 the newest Q&A, completely covers 000-439 test

original topic. With our completed IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-439 test on Your First Try, 100% Money Back Guarantee included!

000-439 Exam Study Guide

000-439 exam is regarded as one of the most favourite [IBM certifications I Certifications](#). Many IT professionals prefer to add 000-439 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-439 exam but also provides you the excellent 000-439 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-439 exam

000-439 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-439 exam questions updated on regular basis

Same type as the certification exams, 000-439 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-439 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-439

Title : Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008

1. Which IBM TotalStorage Productivity Center host system is limited to 500 threads?

- A. AIX
- B. Linux
- C. HP-UX
- D. Windows

Answer: D

2. A storage administrator has allocated a LUN from a DS/8000 to an AIX server. IBM TotalStorage Productivity Center indicates that the AIX server has unallocated disk space. Which process has not been completed by the UNIX administrator?

- A. define a filesystem
- B. run config manager
- C. zone the LUN to the server
- D. enable the HBA on the server

Answer: A

3. Which factor can dictate customer data retention policies?

- A. federal regulations
- B. storage media type
- C. distance of off-site location
- D. amount of incremental data to be protected

Answer: A

4. What are two benefits of mapping the customer business processes to the storage environment in the baseline gathering stage? (Choose two.)

- A. identifies waste
- B. describes costs clearly
- C. provides audit-ready posture
- D. defines steps and sequences
- E. defines customer requirements

Answer: AD

5. What is required in order to back up a customer critical files?

- A. IBM Tivoli Storage Manager for SANs
- B. IBM TSM Hierarchical Storage Manager (HSM) on Windows
- C. IBM Tivoli Storage Manager for System Backup and Recovery
- D. Open File Support with IBM Tivoli Storage Manager Extended Edition

Answer: D

6. Which three factors must be considered when implementing IBM Tivoli Storage Manager? (Choose three.)

- A. network speed
- B. number of HBAs required
- C. type of SAN disk being used
- D. change rate of the client data
- E. number of SAN switches in the infrastructure
- F. microcode level of the SAN device where the storage pools are located

Answer: ABD

7. The customer has a strong compliance requirement for data encryption on network and off-site locations. Which two practices should be recommended to this customer? (Choose two.)

- A. make sure all data are classified
- B. make sure that production data are properly classified
- C. propose encryption solutions according to company policies
- D. make sure that IBM Tivoli Storage Manager pools are configured for encryption
- E. use the GSS-API provided by Tivoli products and integrate with network components

Answer: BC

8. A customer plans to renew their storage infrastructure to cope with performance and availability requirements stated by IT management and business drivers. Which solution should be recommended to this customer?

- A. SAN Volume Controller
- B. Bare Machine Recovery
- C. Tivoli Enterprise Console
- D. IBM Tivoli Storage Manager

Answer: A

9. Which key business process is most necessary to understand in order to describe SLAs as they relate to storage

- A. audit procedures
- B. hardware provisioning
- C. customer service handling
- D. maintenance and support services

Answer: B

10. A business has ten servers that are critical and must be restorable at the disaster recovery site. Which three components must be considered in the disaster recovery site to implement this request? (Choose three.)

- A. SLAs
- B. availability of HBAs

- C. IP network speed at the disaster site
- D. backup and restore media infrastructure
- E. amount of incremental data on the client
- F. network speed from disaster site to primary site

Answer: ACD

11. Which two processes should be in place for a successful data management initiative? (Choose two.)

- A. data security
- B. data replication
- C. data provisioning
- D. change management
- E. incident management

Answer: AB

12. Which information should a customer baseline document include?

- A. analysis of customer's data management maturity level
- B. analysis of all data loss exposures that the customer currently faces
- C. configuration logs showing customer data structure for applications and databases
- D. names and phone numbers of everyone that needs to be contacted during the current customer engagement

Answer: D

13. Which server component acts as a traffic controller by directing information and handling requests from the agent?

- A. TotalStorage Productivity Center for Data
- B. TotalStorage Productivity Center for Disk
- C. TotalStorage Productivity Center Basic Edition
- D. TotalStorage Productivity Center for Replication

Answer: A

14. During the planning and inventory phase of the consulting process, which two topics are part of the document describing the customer's current storage environment (baseline)? (Choose two.)

- A. return on investment (ROI) analysis
- B. customer's storage hardware assets
- C. customer's long term business vision
- D. customer's IT processes related to storage
- E. mapping of IBM storage solutions that meet customer's needs

Answer: BD

15. A telecommunication company wants to ensure inability of access to sensitive information stored on disk pools after expiration or migration of data. Which security practice is a valid way for the company to fulfill this requirement?

- A. degauss disks internally and destroy them
- B. use operating system tools to remove data
- C. shred data from disk after expiration or migration
- D. use active data only policies to ensure only valid data are maintained

Answer: C

16. What information is relevant when creating a customer's baseline documentation as input to a storage solution design?

- A. biggest risk factors
- B. IBM solution differentiators
- C. business benefits provided by the solution
- D. IT organizational structure diagram and description

Answer: D

17. Which two IBM software product functions are designed to map to the customer business requirements? (Choose

two.)

- A. handling alerts
- B. monitoring thresholds
- C. handling documentation
- D. managing network sockets
- E. providing management reports

Answer: AB

18. What is required to identify valid participants for an introductory meeting?

- A. organization address book, including pictures
- B. organization mailing list showing the exact locations where each employee is working
- C. organization chart showing the line relationship between the CIO and the subordinate storage group
- D. organization chart showing the lateral relationship between the CIO and the subordinate storage administrator

Answer: C

19. Which three items should be recorded while collecting baseline information pertaining to the customer storage environment? (Choose three.)

- A. audit/compliance
- B. disk management
- C. data management
- D. product certifications
- E. problem management
- F. hardware administration

Answer: ABC

20. Who should attend an introductory meeting of a business continuity design and implementation project?

- A. IBM Tivoli Identity Manager administrator
- B. IBM Tivoli Enterprise Portal administrator
- C. IBM Tivoli Storage Manager administrator
- D. IBM Tivoli Access Manager administrator

Answer: C
