IBM rational-requirements management with use cases-part2

Practice Exam: 000-637

Exam Number/Code: 000-637

Exam Name: rational-requirements management with use cases-part2

Questions and Answers: 111 Q&As

Exam Description

Order : [000-637 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-637 Exam.

Exam4Test **Practice Exams** for 000-637 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications II** exam and get your **IBM certifications II Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications II** "000-637" (rational-requirements management with use cases-part2) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test IBM certifications II 000-637 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications II 000-637 exam provides everything which you need to pass your exam. The IBM certifications II Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-637 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first rational-requirements management with use cases-part2(IBM certifications II) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-637 exam.

000-637 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications II exam. 000-637 exam questions updated on regular basis.

Like actual IBM certifications II Certification exams, 000-637 exam preparation is in multiple-choice questions (MCQs). Tested by many real IBM certifications II exams before publishing.

Try free IBM certifications II exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-637 Exam: 100% Guarantee to Pass Your 000-637 exam and get your IBM certifications II Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your IBM certifications II Certification.

Exam4Test professional provides IBM certifications II 000-637 the newest Q&A, completely covers 000-637 test

original topic. With our completed IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-637 test on Your First Try, 100% Money Back Guarantee included!

000-637 Exam Study Guide

000-637 exam is regarded as one of the most favourite [IBM certifications II Certifications](#). Many IT professionals prefer to add 000-637 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-637 exam but also provides you the excellent 000-637 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-637 exam

000-637 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-637 exam questions updated on regular basis

Same type as the certification exams, 000-637 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-637 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-637

Title : Rational-requirements management with use cases-part2

1. What is a scenario?

- A. A specific dialog that can occur between the system and a particular actor
- B. A set of possible dialogs that can occur between the system and one or more actors
- C. An ordered set of flows from the start of the use case to one of its end points
- D. A description of the path the user takes through the use case and the data that is exchanged

Answer: C

2. During what Rational Unified Process (RUP) activity is a use-case outline created?

- A. "Prioritize Use Cases"
- B. "Find Actors and Use Cases"
- C. "Detail a Use Case"
- D. "Develop Vision"

Answer: B

3. Which of the following are appropriate reasons for including an alternative flow of events in a use case? (Select all that apply.)

- A. Actor must have previous information before the use case can begin
- B. Actor requires 99.9% reliability
- C. Actor has several ways to accomplish a goal within the system
- D. Actor can stop the use case at any time

Answer: CD

4. What question helps identify the actors in software requirements?

- A. Who will be using the system?
- B. What subsystems will be in the system?
- C. Who will be paying for the system?
- D. Who will be designing the system?

Answer: A

5. A use-case model is mostly text.

- A. True
- B. False

Answer: A

6. Which of the following may result from a functional decomposition of use cases? (Select all that apply.)

- A. Requirements become fragmented and lose their context
- B. Brief descriptions are very long
- C. Requirements become untestable
- D. Use cases do not achieve clear goals for the actors

Answer: AD

7. What does a supplementary specification include?

- A. Non-functional requirements associated with the entire system
- B. Non-functional requirements associated with a particular use case
- C. <<include>> and <<extend>> relationships associated with a particular use case
- D. Use-case diagram for the entire system

Answer: A

8. The top 20% of root causes are problems that need to be solved. Where are these root causes captured?

- A. Business model
- B. Problem statement
- C. Pareto principle
- D. Problem analysis roadmap

Answer: B

9. Refer to the exhibit below. Which actors can interact with the "Distribute News" use case? (Select all that apply.)

- A. Broker
- B. Market trading system
- C. Trading customer
- D. News system
- E. Scheduler

Answer: CDE

10. Given: Consider the following set of initial user requests from a telephone company about a new customer service system: * The telephone company customer service system shall be able to record and answer questions about telephone installations. * When a customer requests a new telephone, the service representative shall record the customer's name, address, assigned phone installer, and a projected time of the installation. * At the end of each day, the technicians shall record their work. * Start time shall include the year, month, day, hour, and minute. What is the most appropriate classification name for one of the actors in these system requirements?

- A. User
- B. Calendar
- C. Customer
- D. Installer

Answer: D

11. Which of the following are properties of a use case? (Select all that apply.)

- A. Name
- B. Design constraints
- C. Special requirements
- D. Supplementary specifications
- E. Flow of events
- F. Preconditions

Answer: ACEF

12. What does a post-condition describe?

- A. Last step in the basic flow of events
- B. One way that a use case can end
- C. Last non-functional requirement
- D. State of the system after the use case ends

Answer: D

13. What does a use-case diagram show?

- A. Software requirements
- B. Flow of events
- C. User interface screen layouts
- D. What the system is supposed to do

Answer: D

14. What type of relationship exists between use cases and actors?

- A. Arrow association
- B. Extends association
- C. Communicates association
- D. Generalization association

Answer: C

15. What question identifies use cases in software requirements?

- A. What goal will actors achieve by using the system?
- B. What do users need to know when they use the system?
- C. Why is data being stored in the system?
- D. What subsystems are in the software?

Answer: A

16. What characterizes a generic alternative flow of events?

- A. Is part of all scenarios
- B. Handles several different error conditions
- C. Is part of several different use cases
- D. Applies at any point in a use case

Answer: D

17. What is an actor?

- A. Role a tester plays when testing the system
- B. Role a person or thing plays when interacting with the system
- C. Anyone who has a vested interest in the outcome of the system
- D. Anyone who will purchase the system

Answer: B

18. What does the basic flow of events in a use case describe?

- A. Typical use of the system by its actors
- B. Interactions between the use case and other use cases
- C. Least complicated interactions between the system and the actors

D. Choices an actor makes while interacting with the system

Answer: A

19. Which statements are TRUE regarding a use case? (Select all that apply.)

- A. A use case describes actions the system takes to deliver something of value to the actor.
- B. A use case is an isolated part that provides a piece of functionality for the system to be built.
- C. A use case models a dialog between the system and its surroundings.
- D. A use case contains functional software requirements.

Answer: ACD

20. What is a use-case outline?

- A. First draft of the flow of events in a use case
- B. Detailed relationship between each actor and a use case
- C. Preliminary list of use cases in the use-case model
- D. List of properties in a use-case report

Answer: A
