- A. stop agents that contribute data to that workspace
- B. change or create a default workspace for all users
- C. change a view from one type to another (e.g., from pie chart to bar chart)
- D. delete a workspace previously created in Workspace Administration Mode

Answer: C

2. Which three databases are supported on the Tivoli Data Warehouse component of IBM Tivoli Monitoring Express V6.1? (Choose three.)

- A. Oracle 9.2
- B. Oracle 10.1
- C. DB2 Express
- D. Sybase 12.5.3
- E. MS SQL Server 2000
- F. DB2 Enterprise Edition V8 Fix Pack 10

Answer: CEF

3. Which chart type is capable of showing multiple rows from Attribute Groups?

- A. pie chart
- B. table view
- C. linear gauge
- D. circular gauge

Answer: B

4. Which statement is true about Attribute Groups?

- A. Attribute Groups are only available for OS Agents.
- B. Attribute Groups are only available for Universal Agents.
- C. Attributes are organized into Attribute Groups according to their purpose.
- D. Attribute Groups can be organized into multi-dimensional Attribute Groups.

Answer: C

5. IBM Tivoli Monitoring Server, Warehouse Proxy, and DB2 Express are installed. What can be used to create the Data Warehouse?

- A. a DB2 Command Window
- B. the DB2 Express Administrator Console in the Tivoli Enterprise Portal Server
- C. the Create Warehouse option from the Managed Tivoli Enterprise Monitoring Services (MTEMS) context menu for the Warehouse Proxy component
- D. the Create Database option from the MTEMS context menu for the Warehouse Proxy component

Answer: A

6. Click the Exhibit button.

When will the situation presented in this exhibit raise an event?

- A. It will never raise an event.
- B. It will always raise an event.
- C. It will only raise an event when percent free is greater than 1 percent, but less than 5 percent, inclusively.
- D. It will only raise an event when percent free is greater than 1 percent, but less than 5 percent, exclusively.

Answer: B

7. You have a company security policy that states that all user accounts in all application and management software must have a non-blank password. How should you configure IBM Tivoli Monitoring Express V6.1 so it is compliant with this policy?

- A. using the Manage Tivoli Enterprise Monitoring Service (MTEMS), reconfigure the Tivoli Enterprise Portal Server (TEPS) with the Security option enabled
- B. using the MTEMS, reconfigure the Tivoli Enterprise Monitoring Sever with the Security option enabled
- C. on the TEPS machine, go to Control Panel ?Administrative Tools ? Services and change the Log on credentials to a specific User ID and non-blank password
- D. using the Tivoli Enterprise Portal Desktop Client, log-in as the sysadmin user, and configure all user accounts with the Security enabled option in the Administer Users screen

Answer: B

8. What is the purpose of running multiple IBM Tivoli Monitoring Universal Agent SNMP Data Providers on a single system?

- A. Secondary instances are able to perform SNMP Data Provider functions such as collecting MIB data.
- B. Running multiple instances of data providers for the exact same application is efficient, saving time and money.
- C. A single SNMP Data Provider is unable to perform multiple data provider functions. Multiple instances are required
- D. Secondary instances are utilized to provide specialized SNMP Data Provider functions not activated in the first data provider.

Answer: A
