

Exam4Test 000-910 Exams

IBM managing and optimizing informix dynamic server databases

Practice Exam: 000-910

Exam Number/Code: 000-910

Exam Name: managing and optimizing informix dynamic server databases

Questions and Answers: 140 Q&As

Exam Description

Order : [000-910 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-910 Exam.

Exam4Test **Practice Exams** for 000-910 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **Solutions Expert** exam and get your *Solutions Expert Certification*.

We guarantee your success in the first attempt. If you do not pass the **Solutions Expert** "000-910" (managing and optimizing informix dynamic server databases on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test Solutions Expert 000-910 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of Solutions Expert 000-910 exam provides everything which you need to pass your exam. The Solutions Expert Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000 910 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first managing and optimizing informix dynamic server databases(Solutions Expert) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-910 exam.

000-910 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real Solutions Expert exam. 000-910 exam questions updated on regular basis.

Like actual Solutions Expert Certification exams, 000-910 exam preparation is in multiple-choice questions (MCQs). Tested by many real Solutions Expert exams before publishing.

Try free Solutions Expert exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-910 Exam: 100% Guarantee to Pass Your 000-910 exam and get your Solutions Expert Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your Solutions Expert Certification.

Exam4Test professional provides Solutions Expert 000-910 the newest Q&A, completely covers 000-910 test original

topic. With our completed Solutions Expert resources, you will minimize your Solutions Expert cost and be ready to pass your 000-910 test on Your First Try, 100% Money Back Guarantee included!

000-910 Exam Study Guide

000-910 exam is regarded as one of the most favourite [Solutions Expert Certifications](#). Many IT professionals prefer to add 000-910 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-910 exam but also provides you the excellent 000-910 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-910 exam

000-910 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-910 exam questions updated on regular basis

Same type as the certification exams, 000-910 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-910 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-910

Title : Managing and Optimizing Informix Dynamic Server Databases

1. Which isolation level does a database without logging default to?

- A. committed read
- B. dirty read
- C. mode ANSI
- D. repeatable read

Answer: B

2. Which fragments an index by expression?

- A. FRAGMENT BY EXPRESSION col_1
- B. FRAGMENT BY EXPRESSION col_2 > = 10000 IN dbspace1
AND col_2 < 10000 IN dbspace2
- C. FRAGMENT BY EXPRESSION col_1 < 10000
AND col_2 IN dbspace2
- D. FRAGMENT BY EXPRESSION col < 20000 IN dbspace1, col >= 20000 IN dbspace2

Answer: D

3. What does the ATTACH clause in the ALTER FRAGMENT statement do?

- A. It adds extents to a table.
- B. It attaches a raw data file to a table.
- C. It combines two unfragmented tables.
- D. It combines two fragmented tables.

Answer: C

4. Which statement correctly changes the next extent size?
- A. ALTER TABLE customer MODIFY NEXT SIZE 300
 - B. ALTER TABLE customer MODIFY NEXT EXTENT SIZE 300
 - C. ALTER TABLE customer MODIFY EXTENT SIZE 300
 - D. ALTER TABLE customer NEXT SIZE 300

Answer: A

5. Which two types of fragmentation are allowed in a CREATE TABLE statement?

- A. disk striping
- B. dbspace
- C. indexing
- D. round robin
- E. mirroring
- F. tblspace
- G. sorting
- H. expression

Answer: DH

6. Why is a hash function advantageous in an expression-based distribution?

- A. Because it creates an even distribution of data.
- B. Because it creates an uneven distribution of data.
- C. Because it does not do expression testing.
- D. Because it places all data in one dbspace.

Answer: AB

7. Given that the SQL statement SET LOCK MODE TO WAIT has not been executed, if a statement attempts to alter a row that another process has locked, what happens?

- A. The lock is released.
- B. An error is returned.
- C. The row is immediately updated.
- D. The row is updated after the lock is removed.

Answer: B

8. What is a chunk when using raw devices?

- A. a contiguous unit of disk space.
- B. a dynamic unit of disk space.
- C. a location in shared memory
- D. a data table.

Answer: A

9. What are three advantages of fragmentation?

- A. higher availability.
- B. reduced disk space requirements.
- C. parallel scans are possible with PDQ.
- D. finer granularity of archives and resources.

Answer: ACD

10. With database logging, where are transaction records first placed?

- A. in a temporary database table.
- B. in the logical log buffer.
- C. in the primary chunk
- D. in the physical buffer.

Answer: B

11. What are four valid logical and relational operators that can be used with expression-based distribution?

- A. AND
- B. IN
- C. <
- D. >=
- E. !=
- F. MATCHES

Answer: ABCD

12. Which statement fragments a table as round robin?

- A. FRAGMENT AS ROUND ROBIN IN dbspace1, dbspace2.
- B. FRAGMENT TABLE BY ROUND ROBIN IN dbspace1, dbspace2.
- C. FRAGMENT BY ROUND ROBIN IN dbspace1, dbspace2.
- D. FRAGMENT BY ROUND ROBIN

Answer: C

13. In which two situations would you use a round robin fragmentation strategy?

- A. When all fragments must be scanned.
- B. To create uneven data distributions.
- C. When queries perform sequential scans and you have little information about the data being stored.
- D. When tables are accessed with a high degree of selectivity.

Answer: AC

14. Which two happen when the ALTER FRAGMENT statement is run?

- A. Transaction logging, if present, is suspended.
- B. The table is locked until the statement is completed.
- C. The database is locked until the statement is completed.
- D. For databases with logging, the statement executes as a single transaction.

Answer: BD

15. Where are table spaces (tblspaces) created?

- A. in dbspaces
- B. in pages
- C. in extents
- D. in chunks

Answer: A

16. Where is fragment information stored?

- A. in the system catalog tables.
- B. in the physical logs.
- C. in the reserved pages.
- D. in the first page of the database tblspace.

Answer: A

17. Disk space for a table is allocated in one or more units called what?

- A. tblspaces
- B. extents
- C. blobs
- D. chunks

Answer: B

18. What is database administration NOT concerned with?

- A. indexing
- B. creating tables

- C. accessing data
- D. application building

Answer: D

19. What is the system catalog?

- A. A catalogued set of index criteria.
- B. A set of tables created by the administrator
- C. A set of tables that manage the operating system
- D. A set of tables that describe the structure of the database.

Answer: A

20. Which three can be locked?

- A. a row
- B. a page
- C. a column
- D. a key
- E. shared memory

Answer: ABD
