

Exam4Test 000-965 Exams

IBM XIV Storage System Technical Solutions Version 1

Practice Exam: 000-965

Exam Number/Code: 000-965

Exam Name: XIV Storage System Technical Solutions Version 1

Questions and Answers: 105 Q&As

Exam Description

Order : [000-965 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-965 Exam.

Exam4Test **Practice Exams** for 000-965 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications I** exam and get your **IBM certifications I Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications I** "000-965" (XIV Storage System Technical Solutions Version 1) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test IBM certifications I 000-965 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications I 000-965 exam provides everything which you need to pass your exam. The IBM certifications I Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-965 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first XIV Storage System Technical Solutions Version 1(IBM certifications I) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-965 exam.

000-965 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications I exam. 000-965 exam questions updated on regular basis.

Like actual IBM certifications I Certification exams, 000-965 exam preparation is in multiple-choice questions (MCQs) Tested by many real IBM certifications I exams before publishing.

Try free IBM certifications I exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-965 Exam: 100% Guarantee to Pass Your 000-965 exam and get your IBM certifications I Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your IBM certifications I Certification.

Exam4Test professional provides IBM certifications I 000-965 the newest Q&A, completely covers 000-965 test

original topic. With our completed IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-965 test on Your First Try, 100% Money Back Guarantee included!

000-965 Exam Study Guide

000-965 exam is regarded as one of the most favourite [IBM certifications I Certifications](#). Many IT professionals prefer to add 000-965 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-965 exam but also provides you the excellent 000-965 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-965 exam

000-965 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-965 exam questions updated on regular basis

Same type as the certification exams, 000-965 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-965 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-965

Title : XIV Storage System Technical Solutions Version 1

1. How can thin provisioning improve total cost of ownership?

- A.increase the number of available pools
- B.reduce the per-terabyte license required
- C.reduce the need for additional floor space
- D.increase available hard capacity beyond 80 TB

Answer: C

2. In the XIV Storage System, a partition is NEVER mirrored within which component?

- A.RAID group
- B.data module
- C.FC host adapter
- D.Ethernet switch

Answer: B

3. What describes the data redundancy method used in the XIV Storage System?

- A.RAID-6
- B.RAID-10
- C.disk mirroring
- D.partition mirroring

Answer: D

4. Which component of the XIV System has the greatest contribution to the ""Green Data Center"" initiative?

- A.SATA drives
- B.Intel processors
- C.Fibre Channel adapters
- D.power distribution units

Answer: A

5. How many snapshots are supported by the XIV Storage System?

- A.unlimited
- B.up to 255
- C.up to 16,000
- D.up to 127,000

Answer: C

6. Which capabilities of the XIV Storage System make it a key component of the IBM Information Infrastructure?

- A.The XIV System supports virtualization through the SAN Volume Controller only.
- B.The XIV System protects information with efficient snapshots and fast rebuild.
- C.The XIV System supports tiers of storage for both production and archive data.
- D.The XIV System architecture gives administrators the ability to place data on specific drives for fast retrieval.

Answer: B

7. Which two attributes contribute to the XIV System's overall consistent performance? (Choose two)

- A.thin provisioning
- B.built in migration
- C.cache effectiveness
- D.massive parallelism
- E.high performance drives

Answer: CD

8. Which XIV System feature may eliminate the need for full volume copies?

- A.snapshots
- B.remote mirroring
- C.thin provisioning
- D.no orphaned space

Answer: A

9. Which two server operating systems does the XIV System storage controller support? (Choose two)

- A.AIX 6.1
- B.z/OS 1.9
- C.Solaris 5
- D.HP NonStop
- E.Windows 2003

Answer: AE

10. Which characteristic is unique to the XIV Storage System in the IBM disk solution portfolio?

- A.iSCSI
- B.tierless
- C.redundancy
- D.replication

Answer: B

11. Which XIV System feature helps to decrease total cost of ownership by simplification of the configuration process?

- A.intuitive and easy-to-use GUI
- B.one screen to specify block mirroring

- C.hot spare SATA drives added automatically
- D.all host connections automatically virtualized

Answer: A

12. Which two features does the XIV Storage System distribution algorithm provide? (Choose two)

- A.tiering
- B.redundancy
- C.data migration
- D.parity calculation
- E.consistent performance

Answer: BE

13. An IBM Service Representative replaces a data module in an XIV Storage System.

What happens to the data when the new module is installed?

- A.data remains on the current disks
- B.data must be manually redistributed across the system
- C.data is automatically redistributed equally across the system
- D.data is redistributed as it is brought into the cache via a read or write operation

Answer: C

14. Which single point of failure exists in most traditional storage systems and is eliminated by the XIV System's architecture?

- A.firmware failure
- B.NVS cache failure
- C.backplane failure
- D.second disk failure

Answer: C

15. Under what circumstance is an XIV Solutions Assurance Review mandatory?

- A.when any System z server is part of the solution
- B.installation of every XIV System in a customer location
- C.installation of the first XIV System in a customer location
- D.when an installation problem is encountered at the customer location

Answer: C

16. Which two solutions, once installed, can be used to move workloads without disruption? (Choose two)

- A.XIV partitions
- B.XIV Data Mover (XDM)
- C.SAN Volume Controller
- D.TPC Replication Manager
- E.XIV Data Migration Function

Answer: CE

17. The partition table inside the XIV System distributes the partitions across which hardware component?

- A.CPUs
- B.cache
- C.drives
- D.interface modules

Answer: C

18. The XIV Storage System best fits which category in IBM's disk positioning?

- A.competitive takeout
- B.mainframe and distributed
- C.multi-vendor open storage

D.compatible copy services with DS8000

Answer: A

19. What is the primary benefit of the XIV System's distribution algorithm?

- A.constant disk access
- B.constant disk checking
- C.constant disk equilibrium
- D.constant disk defragmenting

Answer: C

20. How does the function of the XCLI compare to the GUI?

- A.The GUI and the XCLI are equal.
- B.The GUI is a subset of the XCLI.
- C.The GUI is a superset of the XCLI.
- D.Only the GUI uses role-based access.

Answer: B
