IBM DR550 Technical Mastery

Practice Exam: 000-S02

Exam Number/Code: 000-S02

Exam Name: DR550 Technical Mastery

Questions and Answers: 138 Q&As

Exam Description

Order : [000-S02 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-S02 Exam.

Exam4Test **Practice Exams** for 000-S02 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications I** exam and get your **IBM certifications I Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications I** "000-S02" (DR550 Technical Mastery) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test IBM certifications I 000-S02 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications I 000-S02 exam provides everything which you need to pass your exam. The IBM certifications I Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-S02 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first DR550 Technical Mastery(IBM certifications I) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-S02 exam.

000-S02 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications I exam. 000-S02 exam questions updated on regular basis.

Like actual IBM certifications I Certification exams, 000-S02 exam preparation is in multiple-choice questions (MCQs). Tested by many real IBM certifications I exams before publishing.

Try free IBM certifications I exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 000-S02 Exam: 100% Guarantee to Pass Your 000-S02 exam and get your IBM certifications I Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your IBM certifications I Certification.

Exam4Test professional provides IBM certifications I 000-S02 the newest Q&A, completely covers 000-S02 test original topic. With our completed IBM certifications I resources, you will minimize your IBM certifications I cost and

be ready to pass your 000-S02 test on Your First Try, 100% Money Back Guarantee included!

000-S02 Exam Study Guide

000-S02 exam is regarded as one of the most favourite [IBM certifications / Certifications](#). Many IT professionals prefer to add 000-S02 exam among their credentials. Exam4Test not only caters you all the information regarding the 000-S02 exam but also provides you the excellent 000-S02 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 000-S02 exam

000-S02 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-S02 exam questions updated on regular basis

Same type as the certification exams, 000-S02 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-S02 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-S02

Title : DR550 Technical Mastery

1. Which of the following components are involved in archiving and retrieving data from the DR550?

- A. IBM DB2 Content Management, System Storage Archive Manager and the DS6000 Storage device disks
- B. IBM DB2 Information Management, System Storage Archive Manager and the DS4100 Storage device disks
- C. A document management system or archive client, IBM DB2 Information Management and the DS4100 Storage device disks
- D. A document management system or archive client, System Storage Archive Manager and the DS4100 Storage device disks

Answer: D

2. After modifying the state of a volume using the DRM command "move drmedia", which command would the administrator use to verify the results of the action?

- A. Isvol
- B. query move
- C. query actlog
- D. query tostate

Answer: C

3. Which two of the following IBM products enable Information Lifecycle Management?

- A. IBM DB2 Content Manager
- B. IBM DB2 UDB for Data Retention
- C. IBM Lotus Notes for Data Retention
- D. IBM System Storage Archive Manager
- E. IBM WebSphere for Data Retention

Answer: AD

4. System Storage Archive Manager script files are stored in which volume group?

- A. /lib
- B. /usr
- C. TSMApps
- D. TSMDBLogs

Answer: C

5. What is required when planning for the network environment for a dual node DR550?

- A. Six LAN cables
- B. Five TCP/IP addresses
- C. Four Ethernet switches
- D. A network protocol converter

Answer: B

6. How is "DS4000 Service Alert" implemented on the DR550?

- A. Remote Support option uses dial modem to send alerts to IBM.
- B. Storage Manager runs on HMC and uses dial modem to send alerts to IBM.
- C. Remote Support option sends alerts to email addresses supplied by customer.
- D. Storage Manager sends an SNMP alert notification to an SNMP server on the customer network.

Answer: D

7. How many rack power connections are required in a 28TB "disk only" DR550 configuration?

- A. Two connections on both racks
- B. Four 220 Volt 30 amp connections
- C. Eight 220 Volt 30 amp connections
- D. Eight 110/220 Volt 20 amp connections

Answer: B

8. What is the process for setting up the client to enable data to be sent to the DR550?

- A. Create CIFS mapping on each client to map to DR550
- B. Create NFS connection to /archive directory on the DR550 then map this directory to clients
- C. Load System Storage Archive Manager API on each client and edit dsm.sys or dsm.opt and register clients
- D. Load System Storage Archive Manager driver on each client and edit dsm.sys or dsm.opt on server to register clients

Answer: C

9. In order for a content management application to access System Storage Archive Manager, which two items must be set up in the System Storage Archive Manager server?

- A. A backup schedule
- B. A client node
- C. A database backup schedule
- D. A management class
- E. A tape storage pool

Answer: BD

10. When stopping the cluster service on a dual node DR550 system, which of the following statements is true?

- A. Cluster services can be stopped from either node using the AIX command HACMP - stop.
- B. Cluster services can be stopped from either node using the AIX command smitty clstop.
- C. Cluster services must be stopped from both nodes individually using the AIX command HACMP - stop.
- D. Cluster services must be stopped from both nodes individually using the AIX command smitty clstart.

Answer: B

11. What should be done when defining tape drives and libraries to System Storage Archive Manager?

- A. First make sure AIX can see the devices
- B. Always dedicate a drive for database backup use
- C. First define the tape drives and then the library
- D. Always use the System Storage Archive Manager device drivers only

Answer: A

12. Which step is required in the DR550 initial configuration?

- A. Set up Call Home
- B. Zone the SAN switches
- C. Configure network addresses
- D. Assign spare drives in the DS4100

Answer: C

13. How can content management applications retrieve data from the System Storage Archive Manager?

- A. System Storage Archive Manager API calls
- B. System Storage Archive Manager import/export
- C. System Storage Archive Manager server to server connections
- D. Directly from the System Storage Archive Manager disk storage pools

Answer: A

14. Which of the following is used to create a backup of rootvg?

- A. smit mkdvd
- B. backup
- C. copydvd
- D. Issavevg

Answer: A

15. Which version of the Tivoli Storage Manager API must be installed and configured on the content management resource server?

- A. TSM API 5.3.2 or later
- B. TSM API 5.2.2 or later
- C. TSM API 5.0.0 or later
- D. DR550 supports all versions of the TSM API

Answer: B

16. Which of the following statements is true regarding IBM Content Manager Products?

- A. They address the needs of a small implementation up to a medium size business at only local locations.
- B. They contain APIs that cover some of the content management functionality needed for a localized solution.
- C. They provide all of the repository backend services necessary to address an enterprise content management system.
- D. They provide some of the repository backend services necessary to address an enterprise content management system.

Answer: C

17. Which AIX command changes or modifies networking addresses?

- A. smitty chfs
- B. smitty mktcpip
- C. ipconfig /c
- D. ipconfig /m

Answer: B

18. During the Solution Assurance Review (SAR), a customer expresses plans to attach an unsupported tape library. What is the most appropriate response for the sales team?

- A. Explain to the customer that this unsupported configuration will prevent IBM from completing the order.
- B. Explain that an RPQ is NOT required if the sale of the DR550 was made through a certified Business Partner.
- C. Allow IBM to ship the DR550 with the customer understanding that it is their responsibility to make it work.
- D. Complete the order and ship the DR550 to the customer while waiting for the configuration to be tested and certified.

Answer: A

19. What must be configured on the content management application machine to communicate with the System Storage Archive Manager server?

- A. Archive client installed, dsmserv.opt configured
- B. TSM backup client installed, dsm.opt or dsm.sys configured
- C. System Storage Archive Manager API installed, dsmserv.opt configured
- D. System Storage Archive Manager API installed, dsm.opt or dsm.sys configured

Answer: D

20. Which of the following can be used to validate that the DR550 is working properly?

- A. Run AIX configuration manager
- B. Start the DR550 HMC Graphical User Interface
- C. Open the rack door and ensure that the LEDs and lights are on
- D. Run the AIX configuration manager and IBM TotalStorage DS6000 Storage Manager

Answer: B
