Cisco Implementing Cisco Unified Wireless Networking Essentials (IUWNE)

Practice Exam: 640-721

Exam Number/Code: 640-721

Exam Name: Implementing Cisco Unified Wireless Networking Essentials (IUWNE)

Questions and Answers: 116 Q&As

Exam Description

Order : [640-721 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 640-721 Exam.

Exam4Test **Practice Exams** for 640-721 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **CCNA** exam and get your **CCNA Certification**.

We guarantee your success in the first attempt. If you do not pass the **CCNA** "640-721" (Implementing Cisco Unified Wireless Networking Essentials (IUWNE)) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test CCNA 640-721 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of CCNA 640-721 exam provides everything which you need to pass your exam. The CCNA Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "640-721 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Implementing Cisco Unified Wireless Networking Essentials (IUWNE)(CCNA) exam try, but also save your valuable time.

Comprehensive questions with complete details about 640-721 exam.

640-721 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real CCNA exam. 640-721 exam questions updated on regular basis

Like actual CCNA Certification exams, 640-721 exam preparation is in multiple-choice questions (MCQs). Tested by many real CCNA exams before publishing.

Try free CCNA exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 640-721 Exam: 100% Guarantee to Pass Your 640-721 exam and get your CCNA Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your CCNA Certification.

Exam4Test professional provides CCNA 640-721 the newest Q&A, completely covers 640-721 test original topic. With our completed CCNA resources, you will minimize your CCNA cost and be ready to pass your 640-721 test on Your First Try, 100% Money Back Guarantee included!

640-721 Exam Study Guide

640-721 exam is regarded as one of the most favourite [CCNA Certifications](#). Many IT professionals prefer to add 640-721 exam among their credentials. Exam4Test not only caters you all the information regarding the 640-721 exam but also provides you the excellent 640-721 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 640-721 exam

640-721 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

640-721 exam questions updated on regular basis

Same type as the certification exams, 640-721 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 640-721 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 640-721

Title : Implementing Cisco Unified Wireless Networking Essentials (IUWNE)

1. How do the characteristics that are available on the Cisco WCS for Linux version differ from those of the Cisco WCS for Windows version?

- A. Cisco WCS for Linux is required for deployments.
- B. Assuming that there are no differences in hardware, a Cisco WCS for Linux can support up to 750 wireless LAN controllers. A Cisco WCS for Windows can support up to 250 wireless LAN controllers.
- C. Cisco WCS for Windows includes support for Cisco Spectrum Expert clients. Cisco WCS for Linux does not support Cisco Spectrum Expert clients.
- D. There are no differences in features between the Linux and Windows versions of Cisco WCS.

Answer: D

2. You work as a network technician at Cisco.com, read this subject carefully ,then answer the question. The existing Cisco Unified Wireless Controller is running v5.0 code for both the controllers and the Cisco WCS. A controller has been configured with an appropriate rogue rule condition to report discovered APs to the Cisco WCS. What default alarm level is used to display all rogue APs in the Alarm Summary?

- A. Major
- B. Critical
- C. Flash
- D. Minor

Answer: D

3. Which device(s) will Lightweight access points send control traffic to?

- A. The Wireless Control System.
- B. Other access points.
- C. The Wireless Controller.
- D. Lightweight access points don't send control traffic.

Answer: C

4. Cisco Client Management Frame Protection is running on a mobility group with two controllers. For the following options ,which two MFP requirements protect the network? (Choose two.)

- A. requires the use of a nonbroadcast SSID
- B. requires CCXv5
- C. implements the validation of wireless management frames
- D. forces clients to authenticate, using a secure EAP method only

Answer: BC

5. Which one of the following CLI commands displays the controller configuration in a way that is similar to the way that it is shown on Cisco IOS routers?

- A. show run-config
- B. show config
- C. show run config
- D. show running-config

Answer: D

6. What is a common standard for wireless LANs?(Choose two)

- A. IEEE 802.11
- B. IEEE 802.3z
- C. Wi-Fi
- D. IEEE 802.16.

Answer: AC

7. The central office is currently using a combination of 4400 and 2100 series WLAN controllers running v4.2 and a variety of LWAPP-enabled access points servicing both 2.4 GHz and 5 GHz. The WLAN deployment has been extended to each remote office by implementing a 526 WLAN controller running v4.1 and several 521 access points. Wireless client deployment uses EAP-TLS authentication by use of a centralized RADIUS server plus 802.11n for performance. After the first remote office deployment, remote office users complain that they are not connecting via 802.11n.

Which will most likely cause this problem?

- A. The 521 AP does not support 5 GHz, which prohibits 802.11n.
- B. The 521 AP and 526 WLAN controllers do not support AES, which prohibits 802.11n.
- C. The 526 WLAN controller does not support external authentication via RADIUS, prohibiting authentication.
- D. The 526 WLAN controller does not support 802.11n with either v4.1 or v4.2.

Answer: D

8. As a network technician ,you must know Cisco WiSMs . Up to how many Cisco WiSMs are supported in a single mobility group operating under v5.0 code?

- A. 16
- B. 12
- C. 24
- D. 5

Answer: B

9. In the AP Layer 3 controller discovery process, after the LWAPP Discovery Request is broadcast on a local subnet, which action will AP take next?

- A. Send an LWAPP response to the master controller if known.
- B. Send an LWAPP discovery request to controllers learned via OTAP if operational.
- C. Wait 5 seconds and resend a Discovery Request to the local subnet.
- D. Determine whether the controller responses are the primary controller.

Answer: B

10. For the following elements ,which three define the 802.11n implementation of MIMO? (Choose three.)

- A. Channel Bonding
- B. Maximal Ratio Combining
- C. Spatial Multiplexing
- D. Transmit Beam Forming

Answer: BCD

11. True or false: A wireless PAN consumes little power from small handheld computer devices.

- A. True
- B. false

Answer: A

12. Observe the following attacks, which two does Management Frame Protection help to mitigate? (Choose two.)

- A. War Driving
- B. Man-in-the-Middle
- C. Eavesdropping
- D. Denial of Service

Answer: BD

13. What happens when client exclusion is enabled with a timeout value of zero ?

- A. Clients are excluded indefinitely.
- B. Client exclusion is disabled.
- C. Clients are never excluded.
- D. Clients must be explicitly included by specifying the MAC address.

Answer: A

14. What are the four types of wireless networks?(Choose four)

- A. Wireless PAN
- B. LAN
- C. MAN
- D. VLAN
- E. WAN

Answer: ABCE

15. What is the typical maximum range of a wireless PAN?

- A. 45 feet
- B. 50 feet.
- C. 55 feet
- D. 60 feet

Answer: B

16. When importing a single campus map into the Cisco WCS 5.0, which four file formats will be used? (Choose four.)

- A. BMP
- B. PNG
- C. GIF
- D. JPEG
- E. JPG

Answer: BCDE

17. Which three values will be used to calculate Effective Isotropic Radiated Power? (Choose three.)

- A. antenna bandwidth
- B. antenna gain
- C. cable loss
- D. transmission power

Answer: BCD

18. You are a network engineer at Cisco.com, When creating a wireless profile in the Cisco ADU and you have selected the WPA/WPA2/CCKM radio button option, what other decision will you make and then configure on this same screen?

- A. the SSID of the wireless client
- B. the length and value of the pre-shared key
- C. the EAP type to be used for authentication
- D. the encryption type

Answer: C

19. For the following items ,which one correctly describes fading?

- A. A function of the frequency and should be provided in the cable specification by the vendor.
- B. Another signal source is producing energy on the channel in which you are trying to operate.
- C. A time-varying change in the path loss of a link with the time variance governed by the movement of objects in the environment, including the transmitter and receiver themselves.
- D. The desired signal reaches the receiving antenna via multiple paths, each of which has a different propagation delay and path loss.

Answer: C

20. Observe the following statements, which limitation applies to the use of the Cisco WLAN Solution Management over Wireless feature?

- A. Read-write access is not available; only read-only access is supported.
- B. Controllers must be managed using only secure protocols (that is, SSH and HTTPS), not nonsecure protocols (that is, HTTP and Telnet).
- C. Uploads and downloads from the controller are not allowed.
- D. Wireless clients can manage other controllers however not the same controller and AP to which the client is associated.

Answer: C
