

### **Exam4Test 642-481 Exams**

#### **Cisco Cisco Rich Media Communications(CRMC)**

**Practice Exam:** 642-481

**Exam Number/Code:** 642-481

**Exam Name:** Cisco Rich Media Communications(CRMC)

**Questions and Answers:** 95 Q&As

#### **Exam Description**

**Order :** [642-481 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 642-481 Exam.

Exam4Test **Practice Exams** for 642-481 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **APE for Validating Knowledge** exam and get your **APE for Validating Knowledge Certification**.

We guarantee your success in the first attempt. If you do not pass the **APE for Validating Knowledge** "642-481" (Cisco Rich Media Communications(CRMC)) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test APE for Validating Knowledge 642-481 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of APE for Validating Knowledge 642-481 exam provides everything which you need to pass your exam. The APE for Validating Knowledge Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "642-481 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Cisco Rich Media Communications(CRMC)( APE for Validating Knowledge ) exam try, but also save your valuable time.

Comprehensive questions with complete details about 642-481 exam.

642-481 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real APE for Validating Knowledge exam. 642-481 exam questions updated on regular basis.

Like actual APE for Validating Knowledge Certification exams, 642-481 exam preparation is in multiple-choice questions (MCQs). Tested by many real APE for Validating Knowledge exams before publishing.

Try free APE for Validating Knowledge exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 642-481 Exam: 100% Guarantee to Pass Your 642-481 exam and get your APE for Validating Knowledge Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your APE for Validating Knowledge Certification.

Exam4Test professional provides APE for Validating Knowledge 642-481 the newest Q&A, completely covers 642-481 test original topic. With our completed APE for Validating Knowledge resources, you will minimize your APE for Validating Knowledge cost and be ready to pass your 642-481 test on Your First Try, 100% Money Back Guarantee included!

## **642-481 Exam Study Guide**

642-481 exam is regarded as one of the most favourite [APE for Validating Knowledge Certifications](#). Many IT professionals prefer to add 642-481 exam among their credentials. Exam4Test not only caters you all the information regarding the 642-481 exam but also provides you the excellent 642-481 study guide which makes the certification exam easy for you.

## **Exam4Test Engine Features**

Comprehensive questions and answers about 642-481 exam

642-481 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

642-481 exam questions updated on regular basis

Same type as the certification exams, 642-481 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 642-481 exam demo before you decide to buy it in Exam4Test.com

## **Exam4Test Help You Pass Any IT Exam**

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 642-481

Title : Cisco(r) Rich Media Communications(CRMC(r))

1. The Acme Snowboards Company is planning to install an IP videoconferencing system. Up to 10 vendors need to participate in weekly videoconferences using H.320 video endpoints at 128 kbps. All other conference participants will be internal staff using the IP videoconferencing system.

Which two products should the company install to allow the remote vendors to join into the weekly conference?

(Choose two.)

- A. Cisco IPVC 3511 Multipoint Control Unit
- B. Cisco IPVC 3521 BRI Videoconferencing Gateway
- C. Cisco IPVC 3526 PRI Videoconferencing Gateway
- D. Cisco IPVC 3544 Chassis

Answer: AC

2. A customer wants to simultaneously support H.323 conferences with an aggregate of 20 active participants, and SCCP videoconferences with an aggregate of 30 active participants. All video sessions will use voice-activated switching. Which device should be deployed to support this?

- A. Cisco IPVC 3511 Multipoint Control Unit
- B. Cisco IPVC 3511 MCU E
- C. Cisco IPVC 3540-03A with EMP
- D. Cisco IPVC 3540 Transcoder Module
- E. Cisco IPVC 3540-10A with EMP

Answer: E

3. User A and User B are in a video call using Cisco VT Advantage. The call was set up via the local Cisco CallManager. User A and User B determine that they need to add User C to the call. User A attempts to conference in User C, but there are no more SCCP ports available on the MCU.

What will be the outcome of the conference attempt?

- A. The conference will proceed with audio and video using available H.323 ports on the MCU.
- B. The conference will proceed, but only audio will be available.
- C. The conference will fail, but the video call between User A and User B will proceed.
- D. The conference will fail; User A and User B will be disconnected.

Answer: B

4. A startup company is designing a converged network, which will include video telephony and H.323 videoconferencing. Which two are key elements of the videoconferencing dial-plan design? (Choose two.)

- A. Cisco CallManager trunks
- B. zone prefixes
- C. gateway service prefixes
- D. gatekeeper service prefixes

Answer: BC

5. The Acme Roller Skates Company has its corporate HQ in Seattle, with remote sales offices in Denver, Chicago, New York, and Atlanta. The company is in the process of transitioning the H.320 videoconferencing system to an IP videoconferencing system.

The company has installed an MCU at the corporate HQ, but the remote offices still have H.320 terminal endpoints. A Cisco IPVC 3526 PRI Videoconferencing Gateway has been installed to allow the remote offices to dial into videoconferences. The telephony provider has given the company one phone number for the PRI, which can route to a the channels on the PRI.

Which two methods are best for routing calls from the gateway to the MCU for conferences? (Choose two.)

- A. DID
- B. IVR
- C. TCS4
- D. Default Extension

Answer: BC

6. Which three factors must be considered when designing a H.323 videoconferencing dial plan? (Choose three.)

- A. the number of sites in the enterprise
- B. the number and location of gatekeepers
- C. the incoming PSTN call routing method
- D. the DNs and location of conferencing MCUs to be deployed
- E. the videoconferencing features and applications to be deployed
- F. the location of voice gateways

Answer: ACD

7. The Acme Anvils Company is a large enterprise with many office sites. The company is planning to add IP videoconferencing to the existing IP telephony network. It has been determined that an MCU will be placed in each site. External participants in videoconferences will dial in using DID to reach the conference MCUs. Internal participants will dial the proper extension numbers for conferences.

What does Cisco recommend for the videoconferencing gateway placement and the IP-videoconferencing dial plan?

- A. a single videoconferencing gateway with a single zone prefix for all MCUs
- B. a single videoconferencing gateway, with the MCUs at each site having a separate zone prefix that is independent of the area code
- C. a videoconferencing gateway in every site, with an MCU zone prefix for each site that is independent of the area code
- D. a videoconferencing gateway in every site, and the MCU zone prefixes matching the local area code
- E. a videoconferencing gateway in every site, and all the MCUs placed in a single zone prefix

Answer: D

8. Which device allows a H.323 video endpoint to establish a conference with a videoconferencing system that is connected to the PSTN?

- A. H.225 gateway
- B. H.320 gateway
- C. H.323 proxy
- D. HD gateway

Answer: B

9. The Acme Roller Skates Company has its corporate HQ in Seattle, with remote sales offices in Denver, Chicago, New York, and Atlanta. The company is in the process of transitioning the H.320 videoconferencing system to an IP videoconferencing system.

The company has installed an MCU at the corporate HQ, but the remote offices still have H.320 terminal endpoints. A Cisco IPVC 3526 PRI Videoconferencing Gateway has been installed to allow the remote offices to dial into videoconferences. The telephony provider has given the company a block of 100 phone numbers for the PRI, which can route to all the channels on the PRI.

Which method will be best for routing calls from the gateway to the MCU or other endpoints?

- A. DID
- B. IVR
- C. TCS4
- D. Default Extension

Answer: A

10. The Acme Wakeboards Company is planning to install an IP videoconferencing system. One vendor needs to participate in weekly videoconferences using a H.320 video endpoint at a rate of less than or equal to 512 kbps. All other conference participants are internal staff.

Which product should the company install to allow the remote vendor to join into the weekly conference?

- A. Cisco IPVC 3511 Multipoint Control Unit
- B. Cisco IPVC 3521 BRI Videoconferencing Gateway
- C. Cisco IPVC 3526 PRI Videoconferencing Gateway
- D. Cisco IPVC 3540 Series Videoconferencing System
- E. Cisco IPVC 3544 Chassis

Answer: B

11. Bob's Bicycles recently implemented a H.323 videoconferencing solution, and wishes to conduct videoconferences with the main supplier over the extranet using the existing four-digit numbering plan at each company. Due to overlapping dial plans, the called digits must be manipulated to allow the video calls to be completed. Which solution can support this?

- A. H.323 proxy
- B. gatekeeper
- C. directory gatekeeper
- D. IP-to-IP gateway

Answer: D

12. Bob's Bicycles currently has a room-based videoconferencing system that is connected to the PSTN via three BRIs. The company is converting to H.323 and would like to continue using the BRIs to make video calls to the suppliers. Which device should the company deploy?

- A. Cisco IPVC 3511
- B. Cisco IPVC 3521
- C. Cisco IPVC 3526
- D. Cisco IPVC 3540

Answer: B

13. A customer has deployed a Cisco IPVC 3511 MCUE. Which three features will be available? (Choose three.)

- A. connection to H.320 systems using up to four BRIs
- B. connection to H.320 systems using up to two PRIs
- C. audio transcoding
- D. port configuration for both SCCP and H.323
- E. conferencing up to 15 voice-activated sessions
- F. conferencing up to 15 continuous presence sessions

Answer: CEF

14. Which call would most likely require an audio transcoder?

- A. 128-kbps ISDN call to MCU
- B. 128-kbps H.323 call to MCU
- C. 128-kbps ISDN call to H.323 endpoint
- D. 384-kbps ISDN call to H.323 endpoint
- E. 384-kbps H.323 call to MCU

Answer: A

15. The Acme Roller Skates Company has a single Cisco IPVC 3511 MCUE. At present there are two conferences occurring as follows:

A third conference is desired with the following requirements:

Conference 3:

three conference participants

What will occur when the third conference is attempted?

- A. The third conference will succeed as desired.
- B. The third conference will succeed, but without the enhanced continuous presence.
- C. The third conference will fail because an IPVC 3511 MCU does not have the resources for three conferences of three people each.
- D. The third conference will fail because the EMP module does not have the resources to provide the number of required services.

Answer: A

16. The Acme Jet Boats Company is installing an IP videoconferencing system in the corporate office. Users need the ability to dial out to external H.320 videoconferences. The company is installing a videoconferencing gateway, but is concerned that outside callers may be able to dial the gateway and then hairpin back out to the PSTN.

What does Cisco recommend to ensure that this cannot happen?

- A. Set up the gatekeeper to allow only outgoing calls that originate internally.
- B. Configure the Cisco CallManager so that the gateway terminates hairpinned calls.
- C. Configure the gateway to allow only outgoing calls that originate internally.
- D. Use the "#" digit in the service prefix so that hairpinned call attempts will fail.

Answer: D

17. A company would like to provide customized voice prompts for users who are dialing into videoconferences. Which component should be used to support customized voice prompts?

- A. Cisco CallManager
- B. the IVR built into the gateway
- C. the IVR built into the video gateway
- D. Cisco peripheral gateway
- E. the built-in IVR of the MCU

Answer: E

18. How is a H.323 MCU defined in Cisco CallManager so that H.323 endpoints can communicate with endpoints that are controlled by Cisco CallManager?

- A. as a H.320 gateway
- B. as a H.323 gateway

- C. as a gatekeeper-controlled H.225 trunk
- D. as a gatekeeper-controlled intercluster trunk

Answer: C

19. Which two statements accurately describe the EMP? (Choose two.)

- A. It increases the number of voice-activated sessions that are supported.
- B. It increases the number of continuous presence layouts.
- C. It increases the number of audio-only conference sessions that are supported.
- D. It allows the MCU to perform rate matching.
- E. It is required for simultaneous support for H.323 and SCCP continuous presence sessions.

Answer: BE

20. A company has a requirement for up to 10 simultaneous conferences of four people each, and each conference requires 384-kbps to 128-kbps transrating and H.261 to H.263 video transcoding. What should this company purchase?

- A. one Cisco IPVC 3540 Transcoder Module for MC06A
- B. one Cisco IPVC 3540 Transcoder Module for MC06A with an EMP blade
- C. one Cisco IPVC 3540 Transcoder Module for MC06A with an EMP3 blade
- D. two Cisco IPVC 3540 Transcoder Modules for MC06A
- E. two Cisco IPVC 3540 Transcoder Modules for MC06A, each with an EMP blade
- F. two Cisco IPVC 3540 Transcoder Modules for MC06A, each with an EMP3 blade

Answer: C
