

Exam4Test 642-871 Exams

Cisco Designing Cisco network Service Architectures (ARCH)

Practice Exam: 642-871

Exam Number/Code: 642-871

Exam Name: Designing Cisco network Service Architectures (ARCH)

Questions and Answers: 271 Q&As

Exam Description

Order : [642-871 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 642-871 Exam.

Exam4Test **Practice Exams** for 642-871 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **CCDP** exam and get your *CCDP Certification*.

We guarantee your success in the first attempt. If you do not pass the **CCDP** "642-871" (Designing Cisco network Service Architectures (ARCH) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test CCDP 642-871 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of CCDP 642-871 exam provides everything which you need to pass your exam. The CCDP Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "642-871 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Designing Cisco network Service Architectures (ARCH)(CCDP) exam try, but also save your valuable time.

Comprehensive questions with complete details about 642-871 exam.

642-871 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real CCDP exam. 642-871 exam questions updated on regular basis

Like actual CCDP Certification exams, 642-871 exam preparation is in multiple-choice questions (MCQs). Tested by many real CCDP exams before publishing.

Try free CCDP exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the 642-871 Exam: 100% Guarantee to Pass Your 642-871 exam and get your CCDP Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your CCDP Certification.

Exam4Test professional provides CCDP 642-871 the newest Q&A, completely covers 642-871 test original topic. With our completed CCDP resources, you will minimize your CCDP cost and be ready to pass your 642-871 test on Your First Try, 100% Money Back Guarantee included!

642-871 Exam Study Guide

642-871 exam is regarded as one of the most favourite [CCDP Certifications](#). Many IT professionals prefer to add 642-871 exam among their credentials. Exam4Test not only caters you all the information regarding the 642-871 exam but also provides you the excellent 642-871 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about 642-871 exam

642-871 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

642-871 exam questions updated on regular basis

Same type as the certification exams, 642-871 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 642-871 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 642-871

Title : Cisco Designing Cisco network Service Architectures (ARCH)

1. Which Cisco Works VPN/Security Management Solution gives administrators access to devices showing real-time status along with operational and configuration functions through a web browser?

- A. VPN Monitor
- B. CSPM
- C. Resource Manager (RME)
- D. Cisco View
- E. IDS Host Sensor

Answer: D

2. What is the frequency and maximum data rate of 802.11a?

- A. 5 GHz frequency and 54 Mbps data
- B. 5 GHz frequency and 10 Mbps data
- C. 2.4 GHz frequency and 10 Mbps data
- D. 2.4 GHz frequency and 64 Mbps data
- E. 12 GHz frequency and 12 Mbps data

Answer: A

3. What can be implemented on a LAN to speed up services for external users and minimize the load on network servers?

- A. VPN networking
- B. CSPM
- C. content networking
- D. fault tolerance

Answer: C

4. What can be done to limit area coverage of a wireless access point to provide added security?

- A. lower Mbps data rates
- B. increase Mbps data rates
- C. group access point frequency channels
- D. enable multicasting

Answer: B

5. Choose the technology required for a VPN when multicast, broadcast, and non IP packets need to be tunneled.

- A. triple-DES
- B. IPSec
- C. GRE
- D. IKE
- E. ISAKMP

Answer: C

6. What helps maximize throughput in a wireless LAN? (Choose two.)

- A. minimize broadcasts
- B. enable IPSec
- C. increase size of roaming domains
- D. use static WEP
- E. filter multicast traffic

Answer: AE

7. What happens when packets traversing the network exceed the MTU of an IPSec/VPN interface?

- A. They trigger a link failure.
- B. They are all discarded and re-transmitted.
- C. They are unable to be sent.
- D. They become fragmented

Answer: D

8. What is the recommended maximum number of clients that an individual wireless access point should support?

- A. between 1 and 8
- B. between 10 and 30
- C. between 32 and 48
- D. between 64 and 96

Answer: B

9. What can be done to ensure connections to workstations that are placed on the edge of a wireless access point's coverage area?

- A. lower data rates
- B. increase data rates
- C. group access point frequency channels together for increased range
- D. enable multicasting

Answer: A

10. Which Layer 3 protocol is used to provide data integrity, privacy, and security on a IP based VPN?

- A. GRE
- B. MD5
- C. PKI
- D. IPSec
- E. L2TP

Answer: D

11. Which IEEE wireless standard provides backward compatibility with 802.11b?

- A. 802.11a
- B. 802.1q
- C. 802.11g
- D. 802.11p

Answer: C

12. What is the frequency and maximum data rate of 802.11b?

- A. 5 GHz frequency and 2.4 Mbps data
- B. 5 GHz frequency and 54 Mbps data
- C. 2.4 GHz frequency and 1.44 Mbps data
- D. 2.4 GHz frequency and 11 Mbps data
- E. 1.44 GHz frequency and 2.4 Mbps data

Answer: D

13. You are asked to design a VPN for a medium sized company. The company has 12 stationary offices and one main office. Each office is more than 80 miles away from the next. What type of VPN would you design for this situation?

- A. remote access VPN
- B. site to site VPN
- C. enterprise remote access VPN
- D. wireless VPN

Answer: B

14. Which VPN management feature would be considered to ensure that the network had the least disruption of service when making topology changes?

- A. dynamic reconfiguration
- B. path MTU discovery
- C. auto setup
- D. remote management

Answer: A

15. Which IP NAT implementation allows IPSec peers to establish a connection through a NAT device?

- A. PAT
- B. NAT-T
- C. Dynamic NAT
- D. IPSec ESP NAT

Answer: B

16. Which of the following is a web-browser based tool designed to provide administrative access for content networking?

- A. Content Distribution Manager (CDM)
- B. Self-Organizing Distributed Architecture (SODA)
- C. Web Cache Communication Protocol (WCCP)
- D. Cisco CallManager
- E. Hypertext Administration Design (HAD)

Answer: A

17. Which protocol can be used to provide WLAN redundancy and low downtime?

- A. EAP
- B. SNMP
- C. WEP
- D. HSRP

Answer: D

18. What is the maximum number of IP phones recommended per wireless access point?

- A. 7
- B. 15
- C. 33
- D. 35
- E. 40

Answer: A

19. Which two statements are true regarding a Cisco wireless LAN? (Choose two.)

- A. Only IP can be transmitted over a wireless LAN.
- B. All stations in a wireless cell share the bandwidth.
- C. Wireless LANs use CSMA/CD access method.
- D. Only one station can send at any one time.
- E. Wireless LANs use a token sharing access method

Answer: BD

20. Which action indicates the optimal level of functional process recovery in a high availability architecture?

- A. Failure of a networking component is automatically detected.
- B. The end-users are unaware that a failure has occurred.
- C. The ailing component fails-over to an alternate component.
- D. Automated alert mechanisms generate a dispatch for service.
- E. Monitoring tools generate alert messages when a less than optimal condition occurs

Answer: B
