

Exam4Test E20-097 Exams

EMC EMC Technology Foundations-Backup and Recovery

Practice Exam: E20-097

Exam Number/Code: E20-097

Exam Name: EMC Technology Foundations-Backup and Recovery

Questions and Answers: 117 Q&As

Exam Description

Order : [E20-097 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the E20-097 Exam.

Exam4Test **Practice Exams** for E20-097 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **Technology Foundations** exam and get your *Technology Foundations Certification*.

We guarantee your success in the first attempt. If you do not pass the **Technology Foundations** "E20-097" (EMC Technology Foundations-Backup and Recovery on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test Technology Foundations E20-097 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of Technology Foundations E20-097 exam provides everything which you need to pass your exam. The Technology Foundations Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "E20-097 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first EMC Technology Foundations-Backup and Recovery(Technology Foundations) exam try, but also save your valuable time.

Comprehensive questions with complete details about E20-097 exam.

E20-097 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real Technology Foundations exam. E20-097 exam questions updated on regular basis.

Like actual Technology Foundations Certification exams, E20-097 exam preparation is in multiple-choice questions (MCQs). Tested by many real Technology Foundations exams before publishing.

Try free Technology Foundations exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the E20-097 Exam: 100% Guarantee to Pass Your E20-097 exam and get your Technology Foundations Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get you Technology Foundations Certification.

Exam4Test professional provides Technology Foundations E20-097 the newest Q&A, completely covers E20-097 test original topic. With our completed Technology Foundations resources, you will minimize your Technology Foundations cost and be ready to pass your E20-097 test on Your First Try, 100% Money Back Guarantee included!

E20-097 Exam Study Guide

E20-097 exam is regarded as one of the most favourite [Technology Foundations Certifications](#). Many IT professionals prefer to add E20-097 exam among their credentials. Exam4Test not only caters you all the information regarding the E20-097 exam but also provides you the excellent E20-097 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about E20-097 exam

E20-097 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

E20-097 exam questions updated on regular basis

Same type as the certification exams, E20-097 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free E20-097 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC e20-097

Title : EMC Technology Foundations-Backup and Recovery

1. What does an EMC HomeBase base profile contain?

- A. All attributes of the operating system required to recover or migrate the environment
- B. Attributes and configuration from protected servers running on a platform different from the HomeBase server
- C. Attributes required to re-establish the application environment on the recovery server
- D. Replication attributes used when multiple protected sites are in place

Answer: A

2. What describes recovery point objective?

- A. Amount of data loss deemed acceptable by the business
- B. Amount of data that can be maintained as part of a backup architecture
- C. Amount of physical tape units in a backup set
- D. Amount of time data is maintained on media before it is deleted

Answer: A

3. Which data storage method is the fastest accessible method?

- A. Near-line
- B. Offline
- C. Offsite vault
- D. Online

Answer: D

4. Which EMC HomeBase log file provides complete debugging information?

- A. console.log
- B. error.log
- C. packages.log
- D. server.log

Answer: D

5. Click the Exhibit button.

You are backing up your data every day at 11 P.M. as shown in the exhibit. You have a file system failure on Day 5 at 11 A.M.

How many backup sets must be recovered?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: A

6. Which Avamar component(s) is/are checked as part of the de-duplication process?

- A. Client and server
- B. Client cache files only
- C. Client only
- D. Server only

Answer: A

7. How does the use of the Open Tape Format help a backup environment?

- A. Allows multiplexed and heterogeneous data to reside on the same tape
- B. Allows non-NetWorker environments to read NetWorker tapes
- C. Enables storage nodes to write save sets to different media types
- D. Permits the use of open encryption methods in the backup process

Answer: A

8. What is an EMC NetWorker pool?

- A. Collection of labeled volumes
- B. Group of backup clients
- C. Multiple save sets
- D. Tape devices from multiple autochangers

Answer: B

9. A customer wants to create a consistent backup of a changing file system on a CLARiiON. Which EMC NetWorker module should be used?

- A. MirrorView
- B. PowerSnap
- C. SnapSure
- D. SnapView

Answer: B

10. What is a benefit of using EMC NetWorker modules?

- A. Allows backup of a database in use
- B. Improves tape utilization ratio
- C. Organizes data on the backup media for fast recovery
- D. Performs cold database backups

Answer: A

11. What is a benefit of a standardized EMC HomeBase recovery process?

- A. Automatic server failure detection and recovery
- B. Integrates with OS snap technology to minimize downtime
- C. Minimizes production bandwidth for server recovery
- D. Recover physical source to virtual targets

Answer: D

12. A file system contains data that changes frequently. The data is extremely critical, and in the event of a data loss must be recovered immediately.

Which level of backup should be performed?

- A. Cumulative backup daily
- B. Full backup every day
- C. Full backup once a month
- D. Full backup once a week

Answer: B

13. What are the features of an EMC NetWorker client software component?

- A. Generates backups, performs recoveries, and provides recovery interfaces
- B. Generates backups, stores tracking data, and provides recovery interfaces
- C. Initiates scheduled backups, performs recoveries, and manages tracking data
- D. Initiates scheduled backups, performs recoveries, and provides recovery interfaces

Answer: A

14. Which event occurs only in an EMC NetWorker server-initiated backup?

- A. Bootstrap save set is created
- B. CFI tracking data is generated
- C. Multiplexing is performed
- D. Only local devices are used

Answer: A

15. When backing up a file server, the data change rate is very high. Which backup level would you recommend for daily backups?

- A. Consolidated
- B. Differential
- C. Full
- D. Incremental

Answer: C

16. What is an EMC NetWorker benefit derived from Open Tape Format?

- A. Compresses backup data
- B. Distributes the backup workload throughout the datazone
- C. Migrates a storage node to a host running a different operating system
- D. Restores data from many types of devices

Answer: C

17. What is a function of EMC NetWorker staging?

- A. Copies backup data to secondary media on the primary backup server
- B. Creates a copy of backup data simultaneously when the backup is performed
- C. Moves backup data to another media after a specific period of time
- D. Replicates a save set to a secondary storage node

Answer: C

18. What is a characteristic of an EMC HomeBase base profile?

- A. Matches the size of the OS on the production server
- B. Stored on the production server

- C. Transferred to offsite storage within the HomeBase server
- D. Transferred to the HomeBase server by default

Answer: D

19. A customer has a file system that changes every day and the customer is implementing EMC NetWorker as its backup application. Which weekly backup schedule results in the fastest recovery at the end of the week?

- A. Full incr incr incr incr incr incr
- B. Full 1 2 3 4 5 6
- C. Full 2 6 2 6 2 6
- D. Full 8 8 8 8 8 8

Answer: D

20. What is true of an EMC HomeBase proxy server?

- A. A cache server for remote profiles
- B. A pass-through server for profiles
- C. Network tunnel server for EMC HomeBase servers
- D. Replication server for remote EMC HomeBase profiles

Answer: B
