EMC Commercial Storage & Info Infrastructure Exam for Tech Archs

Practice Exam: E20-501

Exam Number/Code: E20-501

Exam Name: Commercial Storage & Info Infrastructure Exam for Tech Archs

Questions and Answers: 265 Q&As

Exam Description

Order : [E20-501 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the E20-501 Exam.

Exam4Test **Practice Exams** for E20-501 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **EMC Certification** exam and get your **EMC Certification Certification**.

We guarantee your success in the first attempt. If you do not pass the **EMC Certification** "E20-501" (Commercial Storage & Info Infrastructure Exam for Tech Archs on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test EMC Certification E20-501 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of EMC Certification E20-501 exam provides everything which you need to pass your exam. The EMC Certification Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "E20-501 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Commercial Storage & Info Infrastructure Exam for Tech Archs(EMC Certification) exam try, but also save your valuable time.

Comprehensive questions with complete details about E20-501 exam.

E20-501 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real EMC Certification exam. E20-501 exam questions updated on regular basis.

Like actual EMC Certification Certification exams, E20-501 exam preparation is in multiple-choice questions (MCQs). Tested by many real EMC Certification exams before publishing.

Try free EMC Certification exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the E20-501 Exam: 100% Guarantee to Pass Your E20-501 exam and get your EMC Certification Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your EMC Certification Certification.

Exam4Test professional provides EMC Certification E20-501 the newest Q&A, completely covers E20-501 test

original topic. With our completed EMC Certification resources, you will minimize your EMC Certification cost and be ready to pass your E20-501 test on Your First Try, 100% Money Back Guarantee included!

E20-501 Exam Study Guide

E20-501 exam is regarded as one of the most favourite [EMC Certification Certifications](#). Many IT professionals prefer to add E20-501 exam among their credentials. Exam4Test not only caters you all the information regarding the E20-501 exam but also provides you the excellent E20-501 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about E20-501 exam

E20-501 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

E20-501 exam questions updated on regular basis

Same type as the certification exams, E20-501 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free E20-501 exam demo before you decide to buy it in Exam4Test.com

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC E20-501

Title : Commercial Storage & Info Infrastructure Exam for Tech Archs

1. A customer needs a disaster recovery solution for their Exchange environment. They currently have one site running Exchange within a SAN using CX3-80 storage, and the other smaller Exchange site using DAS. They want to implement a remote recovery solution for Exchange.

What solution will you recommend?

- A. Replication Manager
- B. RepliStor
- C. SAN Copy
- D. SnapView

Answer: B

2. Your customer has been using a CLARiiON CX4 array for several months and has asked you to help them design a data replication solution to their offsite facility approximately 250 km away. Their current network infrastructure can only provide them the equivalent of a T1 connection to the second facility, and they are asking for an RPO of no more than 20 minutes. They need to replicate roughly 1.75 TB of data with a change rate of less than 10%.

The solution must interoperate with Windows and Linux hosts, and maximize the limited bandwidth available to the customer today.

What replication solution would you suggest?

- A. MirrorView/A
- B. RecoverPoint CDP
- C. RecoverPoint/SE CRR
- D. SAN Copy

Answer: C

3. Which EMC backup and recovery solution features out-of-the box integration with Microsoft Volume Shadow Copy Service (VSS)?

- A. Avamar
- B. DiskXtender
- C. NetWorker
- D. RepliStor

Answer: D

4. You have a customer with a remote facility containing only three Windows servers. They recently had their backup tapes fail, and they would like to implement a solution that removes tape from the remote facility, minimizes bandwidth utilization, and keeps the data secure when traveling across the network. If possible, they would like to use existing Windows servers in their data center to replicate the data to.

Which solution meets these requirements?

- A. AutoStart
- B. Avamar
- C. Disk Library
- D. RepliStor

Answer: D

5. A customer has a production Microsoft SQL 2005 database server in an active-passive cluster attached to a CX3-20c with SnapView. They will be implementing a data warehouse on another SQL 2005 database server in a separate active-passive cluster also attached to the same CX3-20c for reporting and analytics.

Which product will automate the process of creating and promoting application consistent database replicas from the production server to the data warehouse server?

- A. MirrorView/A
- B. Navisphere
- C. Replication Manager
- D. VDI

Answer: C

6. A customer wants to have automated failover during a Windows server outage, so that if the customer experiences a server outage, the recovery process will begin without human intervention.

Which EMC solution meets the customer requirement?

- A. Celerra Replicator
- B. NetWorker
- C. RecoverPoint
- D. RepliStor

Answer: D

7. Which RecoverPoint feature provides local synchronous replication between LUNs that reside in one or more arrays at the same site?

- A. CDP
- B. CRR
- C. RPA
- D. RPSD

Answer: A

8. Your customer has been using a CLARiiON CX4 array for several months in their Windows environment and has asked you to help them design a data replication solution to their offsite facility approximately 250 km away. Their current network infrastructure can only provide them the equivalent of a T1 connection to the second facility, and they are asking for an RPO of no more than 20 minutes. They need to replicate roughly 1.75 TB of data with a change rate of less than 10%.

The solution must scale easily and quickly to accommodate anticipated future growth, but provide them the lowest

possible entry point to meet the current requirements.

Which replication solution would you suggest?

- A. MirrorView/A
- B. RecoverPoint CRR
- C. RecoverPoint/SE CRR
- D. SAN Copy

Answer: C

9. A customer has an existing production CX3-80 at their primary site and a CX3-20 at a remote site 2,000 km away. They have three dedicated DS3 and four T1 connections. They need to replicate their critical databases from the primary site to the remote site. The total size of the databases is over 5 TB. They are interested in a SAN-based method to move that much data. Their requirement is a RPO of seconds to minutes.

They are currently negotiating a new WAN contract and are looking to reduce WAN bandwidth requirements. Which EMC solution do you recommend?

- A. RecoverPoint CRR
- B. RecoverPoint/SE
- C. RepliStor
- D. SAN Copy

Answer: A

10. Your customer is currently using RepliStor at their main data center. They would also like to use it to copy data from their remote offices to the main data center. Their main concern is data security when copying from the remote offices.

What are the security features of RepliStor that would meet the customer's data security need?

- A. Connection, Digital Signature, Encryption
- B. Digital Signature, Encryption, Data Verification
- C. Encryption, Compression, Redundancy
- D. Encryption, PKI, Masking

Answer: A

11. XYZ Corporation has recently acquired a secondary data center that is approximately 800 km from its primary data center location. The storage environment at the primary site consists of the following:

Windows servers only

CLARiiON storage system

3 TB of data to be replicated

XYZ will purchase a CLARiiON system for the secondary data center, and they are looking for a scalable and cost-effective replication solution. Which EMC replication solution should you propose in this case?

- A. MirrorView/A
- B. MirrorView/S
- C. RecoverPoint CRR
- D. RecoverPoint/SE

Answer: D

12. A customer wants to automate the setup and management of multiple replicas of the production database on the DMX-3 so developers can create and delete at will for aggressive application development lifecycles.

Which solution would you recommend?

- A. RecoverPoint CRR
- B. Replication Manager
- C. RepliStor
- D. SAN Copy

Answer: B

13. How does SAN Copy, running on a CLARiiON system, identify other storage systems?

- A. Domain ID

- B. FCID
- C. MAC address
- D. World Wide Names

Answer: D

14. A customer backs up their Windows servers to tape. They would like to complement these backups with the ability to provide disaster recovery protection in between backups, allowing only minutes of data loss as well as the ability to recover within minutes or hours.

Which solution fits this requirement?

- A. Avamar
- B. Backup Advisor
- C. Replication Manager
- D. RepliStor

Answer: D

15. How would you describe Replication Manager's chief customer benefit?

- A. Allow the ability to have AS400 and mainframe hosts share the same BCV disk pool.
- B. Automate the creation and management of replicas.
- C. Enable consistent splits between multiple DMX-3 arrays.
- D. Provide a simple GUI that allows backup applications to restore to disk.

Answer: B

16. Which Replication Manager user role has the rights to restore replicas?

- A. Database Administrator
- B. Operator
- C. Power Administrator
- D. Power User

Answer: A

17. A corporation recently acquired a secondary data center that is approximately 1,600 km from their primary data center location. The storage environment at the primary site consists of the following:

Windows and UNIX servers

CLARiiON storage system

10 TB of data to be replicated

T3 data link and 15-minute RPO

You are proposing a CLARiiON storage system for the secondary data center. Which EMC replication solution should you propose?

- A. MirrorView/A
- B. MirrorView/S
- C. RecoverPoint CRR
- D. RecoverPoint/SE

Answer: C

18. Your customer has a mission-critical Oracle database on open systems and CLARiiON that needs an improved method of local replication. The customer wants to reduce as much as possible the amount of time between the each local replica, but is concerned about the disk space needed to maintain all the replicas. They estimate that they want to support about a week of replicas, but worry about the management needed to determine the correct replica to mount.

Which product provides the simplest way to meet this requirement?

- A. RecoverPoint CDP
- B. RepliStor
- C. SAN Copy
- D. SnapView

Answer: A

19. Which EMC backup and recovery solution replicates individual open and closed files, directories, and shares?

- A. Avamar
- B. DiskXtender
- C. EMC Legato
- D. RepliStor

Answer: D

20. Which protocol is used to connect the RecoverPoint Appliance and the storage array?

- A. FCOE
- B. Fibre
- C. IP
- D. iSCSI

Answer: B
