

## **Exam4Test E22-280 Exams**

### ***EMC Avamar Backup and Data Deduplication Exam***

**Practice Exam:** E22-280

**Exam Number/Code:** E22-280

**Exam Name:** Avamar Backup and Data Deduplication Exam

**Questions and Answers:** 114 Q&As

#### ***Exam Description***

**Order :** [E22-280 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the E22-280 Exam.

Exam4Test **Practice Exams** for E22-280 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **EMC Certification** exam and get your **EMC Certification Certification**.

We guarantee your success in the first attempt. If you do not pass the **EMC Certification** "E22-280" (Avamar Backup and Data Deduplication Exam on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test EMC Certification E22-280 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of EMC Certification E22-280 exam provides everything which you need to pass your exam. The EMC Certification Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "E22-280 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Avamar Backup and Data Deduplication Exam( EMC Certification ) exam try, but also save your valuable time.

Comprehensive questions with complete details about E22-280 exam.

E22-280 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real EMC Certification exam. E22-280 exam questions updated on regular basis.

Like actual EMC Certification Certification exams, E22-280 exam preparation is in multiple-choice questions (MCQs). Tested by many real EMC Certification exams before publishing.

Try free EMC Certification exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the E22-280 Exam: 100% Guarantee to Pass Your E22-280 exam and get your EMC Certification Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your EMC Certification Certification.

Exam4Test professional provides EMC Certification E22-280 the newest Q&A, completely covers E22-280 test

original topic. With our completed EMC Certification resources, you will minimize your EMC Certification cost and be ready to pass your E22-280 test on Your First Try, 100% Money Back Guarantee included!

## **E22-280 Exam Study Guide**

E22-280 exam is regarded as one of the most favourite [EMC Certification Certifications](#). Many IT professionals prefer to add E22-280 exam among their credentials. Exam4Test not only caters you all the information regarding the E22-280 exam but also provides you the excellent E22-280 study guide which makes the certification exam easy for you.

## **Exam4Test Engine Features**

Comprehensive questions and answers about E22-280 exam

E22-280 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

E22-280 exam questions updated on regular basis

Same type as the certification exams, E22-280 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free E22-280 exam demo before you decide to buy it in Exam4Test.com

## **Exam4Test Help You Pass Any IT Exam**

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC e22-280

Title : Avamar Backup and Data Deduplication Exam

1. What is the function of an Avamar spare node?

- A. Load balance the utility node
- B. Dynamically grow capacity
- C. Replace a failed data node
- D. NDMP Accelerator

Answer: D

2. Which EMC Avamar database backup option provides the fastest restore time?

- A. Avamar streaming agent is installed on a proxy server and backs up directly from the database server through the network to EMC Avamar.
- B. Avamar streaming agent is installed on the database server and backs up directly from the database server to EMC Avamar.
- C. Database is first dumped to a local disk cache accessed directly by the Avamar server's utility node where the Avamar agent is installed.
- D. Database is dumped to a local disk cache accessed by an proxy where the Avamar agent is installed.

Answer: D

3. A customer has three MS SQL servers, each has four databases. How many datasets need to be created to back up all databases on all servers with EMC Avamar?

- A. 1
- B. 3
- C. 7

D. 12

Answer: A

4. What are the EMC Avamar typical daily change rates and performance throughputs for backing up databases?

- A. 0.3% daily change rate and performance throughput of 100 GB/hr
- B. 0.3% daily change rate and performance throughput of 10 GB/hr
- C. 3% daily change rate and performance throughput of 100 GB/hr
- D. 3% daily change rate and performance throughput of 10 GB/hr

Answer: C

5. What does Avamar's deduplication process accomplish?

- A. Achieves maximum advantage of disk characteristics
- B. Enables platform-independent data objects
- C. Ensures that each data object is stored only once
- D. Provides data integrity and disaster recovery protection

Answer: D

6. What are key features of EMC Avamar?

- A. Disk-based archive RAID, RAIN, clustering and replication Global deduplication
- B. Global deduplication RAID, RAIN, checkpoints and replication Disk storage
- C. Global deduplication RAID, RAIN, checkpoints and replication Auto-archive of NAS
- D. OS-specific deduplication RAID, RAIN, checkpoints and replication Full, Incremental and Differential file system backups

Answer: B

7. Which level of data can be restored?

- A. Directories only
- B. Files only
- C. Files, directories, and file systems
- D. Filesystems only

Answer: A

8. What describes EMC Avamar MS SQL backups?

- A. Differential backups only include the transaction logs.
- B. Full backups include all objects, system tables and data.
- C. Incremental backups include data that has changed since the last full backup.
- D. Level 1 backups include all objects and data except for system tables.

Answer: B

9. You are using the Avamar Administrator console to configure replication. What is the default Avamar root password?

- A. 8RttoTriz
- B. calvin
- C. changeme
- D. P3t3rPan

Answer: A

10. What describes the characteristics of an NDMP backup capability through an EMC Avamar accelerator?

- A. Initiates a Level-1 backup to the NAS device to retrieve only change files, then uses the file cache to deduplicate data.
- B. Is an active member of the EMC Avamar system's RAIN configuration that provides a backup and recovery solution for NAS devices.
- C. Stores Level 0 data in order to deduplicate subsequent backups, uses the hash cache to deduplicate data sent to the server.

D. Initiates a Level-1 backup to the NAS device to retrieve only change files, then uses the hash cache to deduplicate data.

Answer: D

11. You are configuring the network on an Avamar Data Store and need to log in as user 'root'. What is the default operating system root password?

- A. 8RttoTriz
- B. calvin
- C. changeme
- D. P3t3rPan

Answer: C

12. What is an advantage of Avamar's deduplication technology?

- A. Eliminates backup catalog
- B. Improves drive speeds
- C. Stores data from different OS on same devices
- D. Stores unique sub-file data objects

Answer: B

13. A customer has an MS Exchange 2003 server with five Exchange databases in three storage groups. How many datasets will need to be defined to back up this Exchange environment?

- A. 1
- B. 3
- C. 5
- D. 8

Answer: B

14. What are the components of the Avamar benchmark test?

- A. Random write, garbage collect performance, and HFS check performance
- B. Random write, random read, and network throughput
- C. Sequential write, network throughput, and backup performance
- D. Sequential write, sequential read, and random seek

Answer: D

15. What describes the characteristics of an EMC Avamar NDMP accelerator?

- A. A component of the EMC Celerra NAS architecture that provides backup and restore capability to the EMC Avamar server
- B. A specialized node that intercepts Level-1 deduplicated data from the NAS devices and passes it along to the Avamar server to provide full copies of the data
- C. An active member of the EMC Avamar system's RAIN configuration that provides a backup and recovery solution for NAS devices via the Network Data Management Protocol (NDMP)
- D. A specialized node that acts as a proxy to provide a complete backup and recovery solution for NAS devices via the Network Data Management Protocol (NDMP)

Answer: D

16. In an EMC Avamar backup, how are Microsoft Office 2007 files processed?

- A. Chunking is not performed on the files.
- B. Files are chunked first, then compressed and hashed.
- C. Files are compressed first, then chunked and hashed.
- D. Files are uncompressed first, then chunked and hashed.

Answer: D

17. How does Avamar differ from traditional backup and restore solutions?

- A. Backs up only unique, sub-file data objects

- B. Offers one server configuration type
- C. Provides four types of backup levels
- D. Uses dedicated backup network

Answer: B

18. Click the Exhibit button.

Which EMC Avamar accelerator processes map to each item listed?

- A. 1=Avagent, 2=NDMPCOPY, 3=ndmjob, 4=avtar
- B. 1=Avagent, 2=avtar, 3=NDMPCOPY, 4=ndmjob
- C. 1=Avagent, 2=avtar, 3=NDMPCOPY, 4=ndmjob
- D. 1=Avagent, 2=ndmjob, 3=NDMPCOPY, 4=avtar

Answer: A

19. Which type of Avamar fault tolerance provides protection for node failure?

- A. Checkpoint
- B. RAID
- C. RAIN
- D. HFS Check

Answer: D

20. When backing up a MS Windows cluster using EMC Avamar, which resource needs to be excluded from the backup dataset?

- A. C: drive
- B. Quorum drive
- C. Shared Resource
- D. System32 Directory

Answer: B
