HP Enterprise Integration and Management of HP ProLiant Servers

Practice Exam: HP0-725

Exam Number/Code: HP0-725

Exam Name: Enterprise Integration and Management of HP ProLiant Servers

Questions and Answers: 107 Q&As

Exam Description

Order : [HP0-725 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the HP0-725 Exam.

Exam4Test **Practice Exams** for HP0-725 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **HP ASE** exam and get your **HP ASE Certification**.

We guarantee your success in the first attempt. If you do not pass the **HP ASE** "HP0-725" (Enterprise Integration and Management of HP ProLiant Servers) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test HP ASE HP0-725 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of HP ASE HP0-725 exam provides everything which you need to pass your exam. The HP ASE Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "HP0-725 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Enterprise Integration and Management of HP ProLiant Servers(HP ASE) exam try, but also save your valuable time

Comprehensive questions with complete details about HP0-725 exam.

HP0-725 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real HP ASE exam. HP0-725 exam questions updated on regular basis.

Like actual HP ASE Certification exams, HP0-725 exam preparation is in multiple-choice questions (MCQs). Tested by many real HP ASE exams before publishing.

Try free HP ASE exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the HP0-725 Exam: 100% Guarantee to Pass Your HP0-725 exam and get your HP ASE Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get your HP ASE Certification.

Exam4Test professional provides HP ASE HP0-725 the newest Q&A, completely covers HP0-725 test original topic. With our completed HP ASE resources, you will minimize your HP ASE cost and be ready to pass your HP0-725 test on Your First Try, 100% Money Back Guarantee included!

HP0-725 Exam Study Guide

HP0-725 exam is regarded as one of the most favourite [HP ASE Certifications](#). Many IT professionals prefer to add HP0-725 exam among their credentials. Exam4Test not only caters you all the information regarding the HP0-725 exam but also provides you the excellent HP0-725 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about HP0-725 exam

HP0-725 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

HP0-725 exam questions updated on regular basis

Same type as the certification exams, HP0-725 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Exam4Test Help You Pass Any IT Exam

[Exam4Test.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : HP HP0-725

Title : Enterprise Integration and Management of HP ProLiant Servers

1. A customer needs to know what modules are currently installed on an HP ProLiant server running Linux. Which command will report this information?

- A. Modprobe
- B. Ismod
- C. Insmod
- D. Rmmmod

Answer: B

2. Which component does Version Control Repository Manager (VCRM) work with to perform version control and update of HP system software?

- A. Network Agent
- B. Version Control Agents
- C. Foundation Agents
- D. Storage Agent

Answer: B

3. A systems administrator connects to a Windows server using Remote Insight Lights Out Edition II (RILOE II). The mouse response of the graphical remote console is extremely slow. What could be done to the server to improve performance? Select TWO.

- A. Change the server display settings to the highest quality.
- B. Enable mouse acceleration.
- C. Uncheck the "Enable pointer shadow" option.
- D. Set the display resolution to 640 x 480.
- E. Select None for the mouse pointer scheme.

Answer: CE

4. What is the maximum transmission distance between two Fibre Channel nodes using multimode (50/125) cable at 1Gb speed?

- A. 200m
- B. 500m
- C. 10km
- D. 70km

Answer: B

5. Which media technology provides the longest possible storage life?

- A. Digital Audio Tape (DAT)
- B. Magneto-Optical
- C. Digital Linear Tape (DLT)
- D. Ultrium

Answer: B

6. A customer can obtain the Version Control Agent (VCA) from the HP website and from what other location?

- A. SmartStart CD
- B. Rapid Deployment Pack CD
- C. QuickFind 2000
- D. SmartStart Scripting Toolkit CD

Answer: A

7. A systems engineer plans to deploy a group of HP ProLiant DL380 G3 servers using HP Rapid Deployment Pack (RDP). The engineer plans to use the default scripted install task for Windows Server 2003. However, the engineer wants to use a custom hardware configuration and custom array configuration. What would be the easiest method to do this?

- A. Modify the mldl-h.ini hardware configuration file. Add the custom hardware and array options to the file.
- B. Modify the mldl-a.ini hardware configuration file. Add the custom hardware and array options to the file.
- C. Capture the hardware configuration and array configuration of an existing server.
- D. Capture an image of an existing server.

Answer: C

8. Which business value tool is available to determine Return On Investment (ROI) for a customer who has more than 100 HP ProLiant servers?

- A. Microsoft Business Evaluation Tool
- B. HP Survey Utility
- C. HP TCO Snapshot Tool
- D. HP Strategic Operations Tool (SOT)

Answer: C

9. When helping a customer plan a large HP ProLiant solution utilizing ML and DL servers, what sizing and planning tool is available from HP?

- A. Rapid Deployment Pack
- B. Custom Builder
- C. HP Systems Insight Manager
- D. SecurePath Manager

Answer: B

10. How is high availability attained in a cluster configuration?

- A. by managing and tolerating failures of separate components
- B. by allowing a failed card to be replaced without having to quiesce applications
- C. by enabling the server to continue to receive power even if one power supply should fail
- D. by preventing single-bit memory errors from propagating into double-bit memory failures

Answer: A

11. A customer running a large database application on an HP ProLiant server reports slow transaction execution during heavy update activity. The database transaction log resides on a set of four drives configured as RAID 5, and the associated disk queue length is 24. How can I/O performance be improved and disk redundancy maintained without adding hardware?

- A. Migrate the RAID 5 volume to RAID ADG.
- B. Enable write-through caching on the array controller.
- C. Migrate the RAID 5 volume to RAID 1+0.
- D. Enable read-ahead caching for the array controller.

Answer: C

12. Which Intel processor supports memory above 4GB for application use?

- A. Pentium Pro
- B. Pentium II
- C. Pentium II Xeon
- D. Pentium III

Answer: C

13. What is the correct method for initiating a firmware upgrade on an HP ProLiant BL class interconnect switch?

- A. Telnet session
- B. FTP session
- C. Secure shell (SSH)
- D. Console session

Answer: D

14. A company has a policy that all passwords must be changed every 45 days. This includes Web Agent passwords for HP Management Agents and SNMP community strings. The customer has 400 HP ProLiant servers. How can the customer change SNMP community strings and Web Agent passwords using HP Systems Insight Manager?

- A. Use the Windows 2000 File replication service to replicate the cpqhmmnd.acl cpqhmmnd.acl to the C:\Compaqwbem directory on each server.
- B. Create a polling task in Insight Manager to have the managed devices poll the Insight Manager server for the new password and SNMP community string information.
- C. Create a group configuration task to retrieve the passwords and community strings from a preconfigured server. Distribute the passwords and community strings to all the managed devices.
- D. Create a password request form at each managed device. Send the request to HP Systems Insight Manager. Have Insight Manager create a control task to distribute the passwords to each requesting device.

Answer: C

15. An application is launched without Resource Partitioning Manager, but a resource partition containing the application has been activated. How will Resource Partitioning Manager respond?

- A. track reporting data for the partition, but not assign resources
- B. monitor the application and dynamically assign resources
- C. immediately shut down the application and reclaim the resources
- D. allow the application to run with limited resources

Answer: B

16. What is required to successfully implement an HP Rapid Deployment Pack (RDP) solution without using a boot disk? Select TWO.

- A. DNS
- B. DHCP

- C. IPSec
 - D. TCP/IP
 - E. IPX/SPX
- Answer: BD

17. Which business value tool is recommended by HP for determining Return On Investment (ROI) and Total Cost of Ownership (TCO)?

- A. Microsoft-TCO Evaluation Tool
- B. ActiveAnswers Sizer
- C. Gartner-TCO Analyst tool
- D. Strategic Operations Model (SOM)

Answer: C

18. User Datagram Protocol (UDP) packets communicate using what layer of the OSI model?

- A. network
- B. internet
- C. transport
- D. application

Answer: C

19. When proposing a new HP ProLiant server for an enterprise-class customer, which bus type gives the best performance for high-bandwidth devices such as Gigabit Ethernet controllers?

- A. PCI-X
- B. PCI
- C. EISA
- D. SCSI

Answer: A

20. During installation of the Version Control Agent (VCA), what will occur if a previous version is detected?

- A. HP ProLiant Setup halts the installation and requests that the agent be updated.
- B. HP ProLiant Setup continues by initiating an upgrade.
- C. HP ProLiant Setup continues with a reinstall of the same version of the agent.
- D. HP ProLiant Setup sees the existing agent and continues to the next step.

Answer: B
