

Exam : **[IBM LOT-847](#)**

Title : **IBM Lotus Notes Domino 8
System Admin Operating
Fundamentals**

Version : **Demo**

1. The user name that creates the original DB2 database must be a member of which of the following groups?

- A. SYSADM
- B. MANAGERS
- C. DB2ADMIN
- D. ADMINISTRATORS

Answer: A

2. While configuring an Internet Site document, Kira has left the option blank for which Domino server hosts the site. What is the default action the server will perform with this option not configured?

- A. The Internet Site will not be loaded on any Domino server
- B. The Internet Site will be loaded on all Domino servers in the domain
- C. The Internet Site will only accept connections for the first IP Address on the server
- D. The Internet Site will only accept connections for the hostname in the server document

Answer: A

3. Domino uses which of the following to determine the best, least-cost path to deliver mail?

- A. The routing table
- B. The MAPS server task
- C. The SMTP updater task
- D. The certification view in the Domino directory

Answer: A

4. Which server console command adds or changes a setting in the NOTES.INI file?

- A. Load update
- B. Enter change
- C. Set Configuration
- D. Update notes variable

Answer: C

5. When a recipient's mail file is not on the local server, but is in the Domino domain, Domino calculates how to route the message to the recipient's server and whether to use SMTP or Notes routing (NRPC). What is the next determination of how the message is routed?

A. If the user's mailfile is running the same Domino version as the sender determines how the message is routed

B. The configuration of the local server and the message format determine how Domino moves the message to the server

C. If the local server can send SMTP within the local Internet domain and the home mail server can receive SMTP, the Router uses SMTP to send the message

D. The configuration of the SMTP task to allow relays on the destination server is read from the Domino Directory. If relays are allowed the message is sent NRPC

Answer: B

6. SMTP stands for which of the following?

A. Simple Mail Transport Protocol

B. Simple Mail Transfer Protocol

C. Standard Mail Transfer Protocol

D. Standard MailTransport Protocol

Answer: B

7. Miranda wishes to deploy LDAP access to the Domino directory. However, she wishes to restrict the fields available to anonymous users. In what document are the fields selected that will be available to anonymous access?

A. LDAP Site document

B. Internet Site document

C. LDAP configuration document

D. Server configuration document

Answer: D

8. Which of the following server tasks examines all documents in a database to find and update Readers and Authors fields, by default?

- A. Updall
- B. Catalog
- C. Agent Manager
- D. Administration Process

Answer: D

9. Rob runs the task UPDALL with the -R argument on his server. What will this accomplish?

- A. It rebuilds indices in all views in all databases on the server.
- B. It discards damaged indices in all views in all databases on the server.
- C. It deletes all indices so that they can be recreated when users access them.
- D. It removes unused space from indices in all views in all databases on the server.

Answer: A

10. Where can you view server statistics in the Domino Administrator client?

- A. Server tab > Statistics tab
- B. Statistics tab > Server tab
- C. Domino tab > Server Statistics tab
- D. Server Statistics tab > Domino tab

Answer: A
