

Exam4Test e20-593 Exams

EMC Backup & Recovery Implementation Exam

Practice Exam: e20-593

Exam Number/Code: e20-593

Exam Name: Backup & Recovery Implementation Exam

Questions and Answers: 260 Q&As

Exam Description

Order : [e20-593 Exam](#)

1. Exam4Test offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the e20-593 Exam.

Exam4Test **Practice Exams** for e20-593 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **Technology Foundations** exam and get your *Technology Foundations Certification*.

We guarantee your success in the first attempt. If you do not pass the **Technology Foundations** "e20-593" (Backup & Recovery Implementation Exam on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Exam4Test Technology Foundations e20-593 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of Technology Foundations e20-593 exam provides everything which you need to pass your exam. The Technology Foundations Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "e20-593 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first Backup & Recovery Implementation Exam(Technology Foundations) exam try, but also save your valuable time.

Comprehensive questions with complete details about e20-593 exam.

e20-593 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real Technology Foundations exam. e20-593 exam questions updated on regular basis.

Like actual Technology Foundations Certification exams, e20-593 exam preparation is in multiple-choice questions (MCQs). Tested by many real Technology Foundations exams before publishing.

Try free Technology Foundations exam demo before you decide to buy it in <http://www.Exam4Test.com>

High quality and Valued for the e20-593 Exam: 100% Guarantee to Pass Your e20-593 exam and get your Technology Foundations Certification. Come to <http://www.Exam4Test.com> The easiest and quickest way to get you Technology Foundations Certification.

Exam4Test professional provides Technology Foundations e20-593 the newest Q&A, completely covers e20-593 test original topic. With our completed Technology Foundations resources, you will minimize your Technology Foundations cost and be ready to pass your e20-593 test on Your First Try, 100% Money Back Guarantee included!

e20-593 Exam Study Guide

e20-593 exam is regarded as one of the most favourite [Technology Foundations Certifications](#). Many IT professionals prefer to add e20-593 exam among their credentials. Exam4Test not only caters you all the information regarding the e20-593 exam but also provides you the excellent e20-593 study guide which makes the certification exam easy for you.

Exam4Test Engine Features

Comprehensive questions and answers about e20-593 exam

e20-593 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

e20-593 exam questions updated on regular basis

Same type as the certification exams, e20-593 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Exam : EMC E20-593

Title : Backup & Recovery Implementation Exam

1. Which NetWorker process runs on each storage node?

A.nsr

B.nsrxecd

C.nsrjobd

D.nsrmmmd

Answer: D

2. Which process monitors active recover sessions?

A.ansrd

B.nsr

C.nsrdbd

D.nsrxecd

Answer: A

3. You want to make sure that only NetWorker Server S1 can back up client C1's data. What do you need to do?

A.Add C1 to /nsr/res file on the NetWorker Server S1

B.Add C1 to /nsr/res/clients file on the NetWorker Server S1

C.Add S1 to /nsr/res/permissions on the client machine C1

D.Add S1 to /nsr/res/servers file on the client machine C1

Answer: D

4. Which NetWorker daemon is responsible for the communication between nsrjb and the user interface?

- A.nsrđ
- B.nsrēxecđ
- C.nsrđcpđ
- D.nsrmmgd

Answer: D

5. A company wants to use a CX3-80 with FLARE 24 as a backup-to-disk destination device. ATA disks are being included as part of the solution.

Which RAID type should be used?

- A.RAID 0
- B.RAID 3
- C.RAID 5
- D.RAID 1/0

Answer: C

6. You are designing a solution for a customer using NetWorker and PowerSnap, to create and back up copy on write (CoW) snapshots of a STD device on a DMX-3 accessed from a Solaris 9 application host. The STD volume size is 300 GB with a change rate of 10%.

What is the minimum VDEV (Virtual Device) size needed?

- A.30 GB
- B.270 GB
- C.300 GB
- D.330 GB

Answer: C

7. Which NetWorker server daemon is responsible for starting other server and storage node daemons?

- A.nsrđ
- B.nsrđjobđ
- C.nsrmmdbđ
- D.nsrmmgd

Answer: A

8. You noticed that a full level save set is still browsable even after its browse time has expired. What could be the cause?

- A.A clone of the save set exists and has a longer retention period
- B.Incremental save sets depending upon this full save set are still browsable
- C.The volume containing the save set is still browsable
- D.There was a read error on the volume containing the save set, giving it a "suspect" status

Answer: B

9. You are designing a backup schedule for a file system that changes frequently.

Which NetWorker weekly backup schedule results in the fastest recovery?

- A.Full incr incr incr incr incr incr
- B.Full 1 2 3 4 5 6
- C.Full 4 7 4 7 4 7
- D.Full 8 8 8 8 8 8

Answer: D

10. Which NetWorker process initiates negotiation with nsrd during a client-initiated backup?

- A.nsrēxecđ
- B.nsrđindexđ

C.nsrlicpd
D.nsrmmdbd
Answer: A

11. The status of a volume was prematurely set to full. Which command can be used to change the status of the volume to continue writing to it?

A.jbedit
B.mminfo
C.nsrck
D.nsrmm
Answer: D

12. In an EDL environment, what describes the use of Tape Cloning with the embedded storage node once the data has been backed up to virtual tape?

A.Backup application issues clone command; EDL copies save sets to physical tape with different barcode
B.Backup application issues clone command; EDL copies save sets to physical tape with same barcode
C.Backup application issues eject command; EDL moves backup data to physical tape with different barcode
D.Backup application issues eject command; EDL moves backup data to physical tape with same barcode
Answer: A

13. Which NetWorker command can be used to find out the dates that a specific save set has been backed up?

A.mminfo
B.mmls
C.nsrinfo
D.nsrts
Answer: A

14. A customer wants to back up two NetWorker clients at the same time every day. Which NetWorker resource is configured to include both clients?

A.Group
B.Policy
C.Pool
D.Schedule
Answer: A

15. What manages a NetWorker remote device?

A.A host outside the NetWorker data zone
B.A storage node other than the NetWorker server
C.Another NetWorker server
D.Remote administration tools
Answer: B

16. In a Windows environment, the NetWorker nsrd process will not start because the resource database is corrupt. How can the resource information be recovered?

A.Remove ...nsrindex, start nsrd, and run mmrecov
B.Remove ...nsrres, start nsrd, and run mmrecov
C.Rename ...nsrindex, start nsrd, and run recover
D.Rename ...nsrmm, start nsrd, and run mmrecov
Answer: B

17. Which NetWorker Management Console server daemon acts as a mini web server and responds to the initial http request from console clients?

- A.dbsrv9
- B.gstd
- C.gsttclsh
- D.nsrđ

Answer: C

18. Which Celerra NS/CLARiiON tool is used to replicate both data and catalog to a remote site?

- A.SRDF
- B.MirrorView
- C.Celerra SnapSure
- D.Celerra Replicator

Answer: B

19. You are configuring two LUNs with 1.5 TB each in a CLARiiON CX3-80.

They will be used as backup-to-disk destination devices on a single Windows NetWorker server.

Which license (option) is needed?

- A.ClientPak
- B.Disk Backup
- C.Storage Node
- D.Virtual Tape Library

Answer: B

20. Which NetWorker feature allows writing more than one save set at a time?

- A.Advanced file type device
- B.Multiplexing
- C.Open tape format
- D.Remote backup device

Answer: B
